Holmes, 2014-07-15 In 1952 Frank L Klingberg's article on introvert and extrovert American foreign policy moods projected an American turn toward introversion in the late 1960s After this came to pass Jack Holmes began to develop a theory of how these moods might work in a more specific sense His mood interest theory points to a basic

conflict between politico military interests and the foreign policy moods of the American electorate Holmes presents a pioneering account of the over whelming impact of public moods on foreign policy Policy making structures executive legislative relations presidential personality pragmatism moralism elitism conservatism international economics and humanitarianism are related to the mood interest pattern Major points are illustrated with examples from 1776 to the present Holmes s analysis indicates that American moods are continuing unabated according to past patterns so that American foreign policy may undergo some surprising changes in the next decade One of the author s hopes is that emphasis on the importance of national moods will help avoid future extremes This book is bold in its assertions and points to major problems in the analysis of American foreign policy Whether or not the reader agrees with the entire analysis he or she will be challenged to think about American foreign policy in new and perhaps revealing ways
