provides copious advice and many diverse techniques for teaching accent modification from the level of basic sounds to the level of discourse. The text emphasizes realistic goal setting so that clients focus on becoming effective communicators as opposed to sounding exactly like native speakers. The objective is a balance between clear and natural speech. Many SLPs favor intelligibility over naturalness because of their backgrounds working with speech delayed children but with non native speakers this often leads to unnatural speech and listeners focus on how something is said as opposed to what is said. Here's How to Do Accent Modification is uniquely geared toward the skills and backgrounds of SLPs working with clients in a one on one setting but is also an excellent introductory text for any English as a Second Language ESL teacher. Robert McKinney brings this unique perspective as a speech language pathologist with degrees in both Communication Disorders and Teaching English as a Second Language. Also included with the text are numerous practical activities and worksheets for working with clients. The ebook includes audio files and video clips to demonstrate working with non native speakers.
