

HISTORY *of* AMERICAN HIGHER EDUCATION

THIRD EDITION

JOHN R. THELIN

American Higher Education A History

Christopher J. Lucas

American Higher Education A History:

A History of American Higher Education John R. Thelin, 2011-11-15 Colleges and universities are among the most cherished and controversial institutions in the United States In this updated edition of A History of American Higher Education John R Thelin offers welcome perspective on the triumphs and crises of this highly influential sector in American life Thelin s work has distinguished itself as the most wide ranging and engaging account of the origins and evolution of America s institutions of higher learning This edition brings the discussion of perennial hot button issues such as big time sports programs up to date and addresses such current areas of contention as the changing role of governing boards and the financial challenges posed by the economic downturn

Higher Education in Transition John Brubacher, 2017-07-05 At a time when our colleges and universities face momentous questions of new growth and direction the republication of Higher Education in Transition is more timely than ever Beginning with colonial times the authors trace the development of our college and university system chronologically in terms of men and institutions They bring into focus such major areas of concern as curriculum administration academic freedom and student life They tell their story with a sharp eye for the human values at stake and the issues that will be with us in the future One gets a sense not only of temporal sequence by centuries and decades but also of unity and continuity by a review of major themes and topics Rudy s new chapters update developments in higher education during the last twenty years Higher Education in Transition continues to have significance not only for those who work in higher education but for everyone interested in American ideas traditions and social and intellectual history

American Higher Education, Second Edition Christopher J. Lucas, 2006-04-02 The roots of controversy surrounding higher education in the US extend deep into the past This original incisive history goes far in offering a needed sense of perspective on current debates over such issues as access costs academic quality social equity and curricula Eminently readable and always lively this timely historical account is sure to be an invaluable resource for assessing the present condition and future prospects of American colleges and universities

american higher education a documentary history, 1961 **The Shaping of American Higher Education** Arthur M. Cohen, Carrie B. Kisker, 2009-11-19 THE SHAPING OF AMERICAN HIGHER EDUCATION SECOND EDITION When the first edition of The Shaping of American Higher Education was published it was lauded for its historical perspective and in depth coverage of current events that provided an authoritative comprehensive account of the history of higher education in the United States As in the first edition this book tracks trends and important issues in eight key areas student access faculty professionalization curricular expansion institutional growth governance finance research and outcomes Thoroughly revised and updated the volume is filled with critical new data recent information from specialized sources on faculty student admissions and management practices and an entirely new section that explores privatization corporatization and accountability from the mid 1990s to the present This second edition also includes end of chapter questions for guidance reflection and study Cohen and Kisker do the

nation's colleges and universities a much needed service by authoring this volume. The highly regarded histories of American higher education have become badly dated. They ignore the last quarter century when American higher education was transformed. This volume provides comprehensive information on that era. Art Levine, president, Woodrow Wilson National Fellowship Foundation and author, *When Hope and Fear Collide: A Portrait of Today's College Student*. The second edition of *The Shaping of American Higher Education* is a treasure trove of information and insight. Cohen and Kisker provide us with astute and straightforward analysis and commentary on our past, present, and likely future. This book is invaluable to those seeking to go to the heart of the issues and challenges confronting higher education. Judith S. Eaton, president, Council for Higher Education Accreditation. Arthur Cohen and his collaborator have now updated his superb history of American higher education. It remains masterful, authoritative, comprehensive, and incisive, and guarantees that this work will stand as the classic required resource for all who want to understand where higher education came from and where it is going. The new material gives a wise and nuanced perspective on the current crisis-driven transformations of the higher education industry. John Lombardi, president, Louisiana State University System. *The Shaping of American Higher Education* is distinguished by its systematic approach, comprehensive coverage, and extensive treatment of the modern era, including the first years of the twenty-first century. In this second edition, Arthur Cohen and Carrie Kisker are especially adept at bringing historical perspective and a balanced viewpoint to controversial issues of the current era. Roger L. Geiger, distinguished professor, The Pennsylvania State University and author, *Knowledge and Money*. **The History of Higher Education**. Association for the Study of Higher Education, 1997. *The History of Higher Education* combines classic readings with the most recent research on the history of American colleges and universities. This book covers five historical periods in the evolution of higher education from the time of the American colonies to the 1970s. The goal of this informative reader is to build a working historical knowledge base of the opportunities and problems confronting American higher education. *A People's History of American Higher Education*. Philo A. Hutcheson, 2019-06-19. This pathbreaking textbook addresses key issues which have often been condemned to exceptions and footnotes if not ignored completely in historical considerations of U.S. higher education, particularly race, ethnicity, gender, and class. Organized thematically, this book builds from the ground up, shedding light on the full, diverse range of institutions, including small liberal arts schools, junior and community colleges, black and white women's colleges, black colleges, and state colleges that have been instrumental in creating the higher education system we know today. *A People's History of American Higher Education* surveys the varied characteristics of the diverse populations constituting or striving for the middle class through educational attainment, providing a narrative that unites often divergent historical fields. The author engages readers in a powerful, revised understanding of what institutions and participants, beyond the oft-cited elite groups, have done for American higher education. *A People's History of American Higher Education* focuses on those participants who may not have been members of elite groups yet who helped push elite

institutions and the country as a whole Hutcheson introduces readers to both social and intellectual history providing invaluable perspectives and methodologies for graduate students and faculty members alike This essential history of American higher education brings a fresh perspective to the field challenging the accepted ways of thinking historically about colleges and universities The American College and University Frederick Rudolph,2011-07-01 First published in 1962 Frederick Rudolph s groundbreaking study The American College and University remains one of the most useful and significant works on the history of higher education in America Bridging the chasm between educational and social history this book was one of the first to examine developments in higher education in the context of the social economic and political forces that were shaping the nation at large Surveying higher education from the colonial era through the mid twentieth century Rudolph explores a multitude of issues from the financing of institutions and the development of curriculum to the education of women and blacks the rise of college athletics and the complexities of student life In his foreword to this new edition John Thelin assesses the impact that Rudolph s work has had on higher education studies The new edition also includes a bibliographic essay by Thelin covering significant works in the field that have appeared since the publication of the first edition At a time when our educational system as a whole is under intense scrutiny Rudolph s seminal work offers an important historical perspective on the development of higher education in the United States **American Higher Education Since World War II** Roger L. Geiger,2019-07-02 A masterful history of the postwar transformation of American higher education American higher education is nearly four centuries old But in the decades after World War II as government and social support surged and enrollments exploded the role of colleges and universities in American society changed dramatically Roger Geiger provides the most complete and in depth history of this remarkable transformation taking readers from the GI Bill and the postwar expansion of higher education to the social upheaval of the 1960s and 1970s desegregation and coeducation and the challenges confronting American colleges today Shedding critical light on the tensions and triumphs of an era of rapid change Geiger shows how American universities emerged after the war as the world s most successful system for the advancement of knowledge how the pioneering of mass higher education led to the goal of higher education for all and how the selectivity sweepstakes for admission to the most elite schools has resulted in increased stratification today He identifies 1980 as a turning point when the link between research and economic development stimulated a revival in academic research and the ascendancy of the modern research university that continues to the present Sweeping in scope and richly insightful this groundbreaking book demonstrates how growth has been the defining feature of modern higher education but how each generation since the war has pursued it for different reasons It provides the context we need to understand the complex issues facing our colleges and universities today from rising inequality and skyrocketing costs to deficiencies in student preparedness and lax educational standards **The History of American Higher Education** Roger L. Geiger,2016-09-06 This book tells the compelling saga of American higher education from the founding of Harvard College

in 1636 to the outbreak of World War II The author traces how colleges and universities were shaped by the shifting influences of culture the emergence of new career opportunities and the unrelenting advancement of knowledge He describes how colonial colleges developed a unified yet diverse educational tradition capable of weathering the social upheaval of the Revolution as well as the evangelical fervor of the Second Great Awakening He shows how the character of college education in different regions diverged significantly in the years leading up to the Civil War for example the state universities of the antebellum South were dominated by the sons of planters and their culture and how higher education was later revolutionized by the land grant movement the growth of academic professionalism and the transformation of campus life by students By the beginning of the Second World War the standard American university had taken shape setting the stage for the postwar education boom The author moves through each era exploring the growth of higher education

American Higher Education, Second Edition Christopher J. Lucas, 2016-04-30 The roots of controversy surrounding higher education in the US extend deep into the past This original incisive history goes far in offering a needed sense of perspective on current debates over such issues as access costs academic quality social equity and curricula Eminently readable and always lively this timely historical account is sure to be an invaluable resource for assessing the present condition and future prospects of American colleges and universities

The History of U.S. Higher Education - Methods for Understanding the Past Marybeth Gasman, 2013-10-14 The first volume in the Core Concepts of Higher Education series The History of U S Higher Education Methods for Understanding the Past is a unique research methods textbook that provides students with an understanding of the processes that historians use when conducting their own research Written primarily for graduate students in higher education programs this book explores critical methodological issues in the history of American higher education including race class gender and sexuality Chapters include Reflective Exercises that combine theory and practice Research Method Tips Further Reading Suggestions Leading historians and those at the forefront of new research explain how historical literature is discovered and written and provide readers with the methodological approaches to conduct historical higher education research of their own

A History of American Higher Education John R. Thelin, 2019-04-02 The definitive history of American higher education now up to date Colleges and universities are among the most cherished and controversial institutions in the United States In this updated edition of *A History of American Higher Education* John R Thelin offers welcome perspective on the triumphs and crises of this highly influential sector in American life Exploring American higher education from its founding in the seventeenth century to its struggle to innovate and adapt in the first decades of the twenty first century Thelin demonstrates that the experience of going to college has been central to American life for generations of students and their families Drawing from archival research along with the pioneering scholarship of leading historians Thelin raises profound questions about what colleges are and what they should be Covering issues of social class race gender and ethnicity in each era and chapter this new edition

showcases a fresh concluding chapter that focuses on both the opportunities and problems American higher education has faced since 2010 The essay on sources has been revised to incorporate books and articles published over the past decade The book also updates the discussion of perennial hot button issues such as big time sports programs online learning the debt crisis the adjunct crisis and the return of the culture wars and addresses current areas of contention including the changing role of governing boards and the financial challenges posed by the economic downturn Anyone studying the history of this institution in America must read Thelin s classic text which has distinguished itself as the most wide ranging and engaging account of the origins and evolution of America s institutions of higher learning *For the Common Good* Charles Dorn,2017-06-06 Are colleges and universities in a period of unprecedented disruption Is a bachelor s degree still worth the investment Are the humanities coming to an end What exactly is higher education good for In *For the Common Good* Charles Dorn challenges the rhetoric of America s so called crisis in higher education by investigating two centuries of college and university history From the community college to the elite research university in states from California to Maine Dorn engages a fundamental question confronted by higher education institutions ever since the nation s founding Do colleges and universities contribute to the common good Tracking changes in the prevailing social ethos between the late eighteenth and early twenty first centuries Dorn illustrates the ways in which civic mindedness practicality commercialism and affluence influenced higher education s dedication to the public good Each ethos long a part of American history and tradition came to predominate over the others during one of the four chronological periods examined in the book informing the character of institutional debates and telling the definitive story of its time *For the Common Good* demonstrates how two hundred years of political economic and social change prompted transformation among colleges and universities including the establishment of entirely new kinds of institutions and refashioned higher education in the United States over time in essential and often vibrant ways *American Higher Education Transformed, 1940-2005* Wilson Smith,Thomas Bender,2008-04-11 This long awaited sequel to Richard Hofstadter and Wilson Smith s classic anthology *American Higher Education A Documentary History* presents one hundred and seventy two key edited documents that record the transformation of higher education over the past sixty years The volume includes such seminal documents as Vannevar Bush s 1945 report to President Franklin D Roosevelt *Science the Endless Frontier* the U S Supreme Court decisions in *Brown v Board of Education* and *Sweezy v New Hampshire* and Adrienne Rich s challenging essay *Taking Women Students Seriously* The wide variety of readings underscores responses of higher education to a memorable often tumultuous half century Colleges and universities faced a transformation of their educational goals institutional structures and curricula and admission policies the ethnic and economic composition of student bodies an expanding social and gender membership in the professoriate their growing allegiance to and dependence on federal and foundation financial aids and even the definitions and defenses of academic freedom Wilson Smith and Thomas Bender have assembled an essential reference for policymakers administrators and all

those interested in the history and sociology of higher education American Academic Cultures Paul H. Mattingly, 2017-11-23 At a time when American higher education seems ever more to be reflecting on its purpose and potential we are more inclined than ever to look to its history for context and inspiration But that history only helps Paul H Mattingly argues if it is seen as something more than a linear progress through time With American Academic Cultures he offers a different type of history of American higher learning showing how its current state is the product of different varied generational cultures each grounded in its own moment in time and driven by historically distinct values that generated specific problems and responses Mattingly sketches out seven broad generational cultures evangelical Jeffersonian republican nondenominational industrially driven progressively pragmatic internationally minded and the current corporate model What we see through his close analysis of each of these cultures in their historical moments is that the politics of higher education both inside and outside institutions are ultimately driven by the dominant culture of the time By looking at the history of higher education in this new way Mattingly opens our eyes to our own moment and the part its culture plays in generating its politics and promise *American Higher Education in a Global Context* Cristina González, 2022-02-14 *American Higher Education in a Global Context* Historical Perspectives describes the current state of universities on each continent providing a comprehensive analysis of the numerous factors that have affected higher education systems around the world This book studies higher education from its emergence in antiquity to the establishment of the American research university model and its adoption around the globe through the current Covid 19 pandemic and concomitant economic and political crisis The author pays special attention to the shortcomings of the neoliberal trend of the last four decades which increased social stratification at institutions of higher learning Calling for an expansion of access to tertiary education and in particular to research universities this book examines the competition between China and the United States in the field of higher education stressing the importance of academic freedom without which there can be no true academic excellence

An Analytical History of American Higher Education Paul Westmeyer, 1997 Higher Education in the American West Richard W. Jonsen, Patty Limerick, David A. Longanecker, 2014-03-19 *Higher Education in the American West* Regional History and State Contexts is the first comprehensive regional history of American higher education It offers new historical research on how societal forces and state actions brought about the region's one thousand two hundred institutions of higher learning in 15 western states American Higher Education Richard Hofstadter, Wilson Smith, 1974

American Higher Education A History Introduction

In today's digital age, the availability of American Higher Education A History books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of American Higher Education A History books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of American Higher Education A History books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing American Higher Education A History versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, American Higher Education A History books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing American Higher Education A History books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for American Higher Education A History books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works

and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, American Higher Education A History books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of American Higher Education A History books and manuals for download and embark on your journey of knowledge?

FAQs About American Higher Education A History Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. American Higher Education A History is one of the best book in our library for free trial. We provide copy of American Higher Education A History in digital format, so the resources that you find are reliable. There are also many Ebooks of related with American Higher Education A History. Where to download American Higher Education A History online for free? Are you looking for American Higher Education A History PDF? This is definitely going to save you time and cash in something you should think about.
