State, Foreign Operations, and Related Programs Appropriations for 2013 United States. Congress. House. Committee on Appropriations. Subcommittee on State, Foreign Operations, and Related Programs, 2012 Examining the Belt and Road Initiative (BRI) Juichi Inada, 2025-03-08 This book endeavors to examine the impact of China's rapid ascendance as a donor on the international development assistance regime over the past two decades. China's rapid economic rise and the success of its economic development have led to a notable trend among many developing countries to view the way of China as a Chinese development model and to imitate it. In addition, China itself has been conscious of the challenge to the development theory and international development assistance regime that has been led mainly by the West and has pushed for policies that differ from those of traditional donors. The Belt and Road Initiative (BRI) which was announced in 2013 is emblematic of these distinctive developments in China. The proliferation of the Chinese development model in the context of these international trends has led some to view it as the global spread of the Beijing Consensus which has replaced the Washington Consensus led by the Bretton Woods Institutions that have exerted significant influence in the past. This book presents case studies of several countries based on the author's field research in Cambodia, Sri Lanka, Myanmar, Angola, Rwanda, and other countries.

Promoting U.S. Investment in Sub-Saharan Africa R. Hendrickson, 2014-08-19 Addressing an understudied aspect of U.S. foreign policy towards sub-Saharan Africa, Hendrickson provides a critical historical analysis of institutions designed to promote private investment in the region. She draws attention to the interaction between strategic factors, domestic interests, and the ideas used to achieve consensus on policy.

In a tempestuous narrative that sweeps across five continents and seven centuries this book explains how a succession of catastrophes from the devastating Black Death of 1350 through the coming climate crisis of 2050 has produced a relentless succession of rising empires and fading world orders During the long centuries of Iberian and British imperial rule the quest for new forms of energy led to the development of the colonial sugar plantation as a uniquely profitable kind of commerce In a time when issues of race and social justice have arisen with pressing urgency the book explains how the plantation s extraordinary profitability relied on a production system that literally worked the slaves to death creating an insatiable appetite for new captives that made the African slave trade a central feature of modern capitalism for over four centuries After surveying past centuries roiled by imperial wars national revolutions and the struggle for human rights the closing chapters use those hard won insights to peer through the present and into the future By rendering often opaque environmental science in lucid prose the book explains how climate change and changing world orders will shape the life opportunities for younger generations born at the start of this century during the coming decades that will serve as the signposts of their lives 2030 2050 2070 and beyond [Political Handbook of the World 2015](#) Tom Lansford,2015-03-24 The Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2015 edition will continue to be the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system It also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this annual update includes coverage of current events issues crises and controversies from the course of this year *How China is Reshaping the Global Economy* Rhys Jenkins,2022-06-16 China s growing
