SECTION A – COMPREHENSION

Read the following passage and answer the questions that follow:

Teaching your children not to litter is a valuable life lesson.

I can no longer simply drive past children who drop their chip packets, cold drink cans and, sometimes entire fast-food packaging, as they walk home from school. Something inside me snaps and I tend to stop my car, interrogate them, and demand they pick up after themselves.

"Why did you throw that down in the street, when there's a rubbish bin a metre from where you dropped it?" I yell. The guilty 10-year-old glares at me as though I am insane or dangerous – perhaps I look it?

Curiously, it seems the whole idea of putting discarded wrappers into a bin designed for that purpose is a foreign concept to many of them. When pressed to answer my question, some of the responses have left me flabbergasted. "But I am creating jobs," said one indignant little litter-lout!

And it's not a stab in the dark to conclude that children like him are only doing what children everywhere do best: following the example set by their parents and caregivers in their lives. But attitudes like this are extremely dangerous. According to Alderman Clive Justus, Cape Town's Mayoral Committee Member for Utility Services, there seems to be a growing tolerance by the public, not only of litter, but of those responsible for it. What's more, this attitude is increasingly threatening the city's rating by international tourism organisations as one of the world's most beautiful cities and desirable holiday destinations, as residents continue to dump refuse illegally and indiscriminately fill our outdoor public spaces with litter.

"Children need to develop a sense of responsibility for themselves, others and the world in which they live in order to be contributing members of society," explains Johannesburg – based educational psychologist Melanie Hartgill.

Animal Narratology Joela Jacobs, 2020-12-15 Animal Narratology interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another's perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling

George Orwell and Communist Poland Krystyna Wieszczyk, 2025-04-21 George Orwell and Communist Poland is the first major account of George Orwell's Polish reception during the Second World War and the Cold War era It shows how Orwell the epitome of a censored writer in the Soviet bloc enjoyed a fulsome reception both outside and within communist Poland It does so by developing a tripartite framework to study reception in conditions of state imposed censorship where three modes are likely to develop in response migr official and clandestine The book thus brings to light Orwell's overlooked relationships with Polish exiles who informed his work and looked upon him not only as a writer but also a personal friend and political ally They eagerly translated his works and sought multinational promotion even behind the Iron Curtain The volume argues that Orwell also experienced official reception smuggled into state controlled culture in officially accepted ways Additionally communist censorship files reflect his reception within the state apparatus Finally the book examines passionate clandestine responses to Orwell's writing and myth in diaries and letters from as early as under Stalinism and explores Orwell's popularity among underground publishing networks which enabled his works to become bestsellers The book draws on sources in foreign languages and previously unseen material including Orwell's lost letters to Teresa Jeleńska the Polish translator of *Animal Farm* The volume significantly broadens our understanding of Orwell
