Cool Creatures, Hot Planet Marty Essen, 2012-12-04 Describes an eight trip three and a half year long adventure to some of the wildest places on all seven continents searching for rare and interesting wildlife Shakespeare on screen, Richard III Nathalie Vienne-Guerrin, This volume does not only provide the reader with diverging assessments of the Richard III films but it also deploys a large array of methodologies used to study Shakespeare on film What gives the volume its coherence is that it thoroughly interrogates what those films do with and to Shakespeare's text and suggests that at least for Shakespearean scholars Shakespearean films are hybrid creatures They are and are not films they are and are not Shakespeare Ce volume offre non seulement au lecteur un examen précis et pluriel des adaptations filmiques de Richard III mais il déploie tout l éventail des méthodologies qui permettent d étudier Shakespeare lui-même La cohérence de ce volume vient de ce qu'il propose des questionnements multiples sur ce que ces films font de Shakespeare et suggère que le film shakespearien est une création hybride qui est et n'est pas un film qui est et n'est pas Shakespeare Ouvrage en anglais **The Death of Evolution** Michael Ebifegha, 2007-04 For over a century evolutionists have been deliberately interpreting all scientific data on origins to fit Darwin's theory of evolution For instance although the evidence in the living world and in all reliable fossil deposits shows abrupt gaps evolutionists interpret these gaps as missing links to justify the numerous transformations that the theory predicts The evolutionist paradigm recently suffered a fatal blow when empirical science ripped off its chapter on junk DNA which Darwinists have idolized as the evolutionary key in unfolding ancestral history and thus the unique testimony against a purely creationist worldview All along just so explanations have persistently been tendered to camouflage the discrepancies In Farewell to Darwinian Evolution Michael Ebifegha presents a historical account of God's creation patent and seal and shows that they corroborate the scientific evidence Arguing that a report claiming both invention and ownership of the cosmos must override any theory relating to events in the cosmos that were never witnessed Ebifegha insists it is time to bid farewell to Darwinian transformational evolution macroevolution The focus in science he stresses must be limited to microevolution the aspect that underpins modern advances in medicine agriculture and selective breeding Dr Michael Ebifegha is a scholar with international experience He is a graduate of Ahmadu Bello University Nigeria M Sc Applied Geophysics Carleton University Canada M Sc Physics and the University of Toronto B Ed Ph D Physics He is currently a full time science and mathematics instructor at the Toronto District School Board Ebifegha is the author of The Darwinian
