 combining multiple biographies with a broader overview of the period His energetic anecdote laden prose will have you
 hooked all the way from Orwell to le Carr Sunday Times Books of the Year Cold Warriors reads like a thriller ambitious
 intelligent searching history The Times In this age of 24 hour news coverage where rallying cries are made on Twitter and
 wars are waged in cyberspace as much as on the ground the idea of a novel as a weapon that can wield any power feels
 almost preposterous The Cold War was a time when destruction was merely the press of a button away but when the real
 battle between East and West was over the minds and hearts of their people In this arena the pen really was mightier than
 the sword This is a gripping richly populated history of spies and journalists protest and propaganda idealism and betrayal
 And it is the story of how literature changed the course of the Cold War just as much as how Cold War would change the
 course of literature Using hitherto classified security files and new archival research White explores the ways in which
 authors were harnessed by both East and West to impose maximum damage on the opposition how writers played a pivotal
 role sometimes consciously often not in the conflict and how literature became something that was worth fighting and dying
 for With a cast that includes George Orwell Arthur Koestler Graham Greene Boris Pasternak Andrei Sinyavsky Mary
 McCarthy and John le Carr and taking the reader from Spain to America to England and to Russia this is narrative history at
 its most enthralling and most pertinent pertinent because even if on the face of it there is a huge difference between 140
 characters and 100 000 words at the heart of both is the power of stories to change the fate of nations BioCycle ,1990
