Using Reflection and Metacognition to Improve Student Learning Naomi Silver, Matthew Kaplan, Danielle LaVaque-Manty, Deborah Meizlish, 2023-07-03 Research has identified the importance of helping students develop the ability to monitor their own comprehension and to make their thinking processes explicit and indeed demonstrates that metacognitive teaching strategies greatly improve student engagement with course material This book by presenting principles that teachers in higher education can put into practice in their own classrooms explains how to lay the ground for this engagement and help students become self regulated learners actively employing metacognitive and reflective strategies in their education Key elements include embedding metacognitive instruction in the content matter being explicit about the usefulness of metacognitive activities to provide the incentive for students to commit to the extra effort as well as following through consistently Recognizing that few teachers have a deep understanding of metacognition and how it functions and still fewer have developed methods for integrating it into their curriculum this book offers a hands on user friendly guide for implementing metacognitive and reflective pedagogy in a range of disciplines Offering seven practitioner examples from the sciences technology engineering and mathematics STEM fields the social sciences and the humanities along with sample syllabi course materials and student examples this volume offers a range of strategies for incorporating these pedagogical approaches in college classrooms as well as theoretical rationales for the strategies presented By providing successful models from courses in a broad spectrum of disciplines the editors and contributors reassure readers that they need not reinvent the wheel or fear the unknown but can instead adapt tested interventions that aid learning and have been shown to improve both instructor and student satisfaction and engagement

Teaching Elementary Grammar with Mentor Texts

Sean Ruday, 2025-09-22 *Teaching Elementary Grammar with Mentor Texts Ready to Use Lesson Plans for Grades 3-5* contains detailed grammar lesson plans for teachers in grades three, four, and five. The lesson plans in this book incorporate the research-based best practices of grammar instruction and apply those practices to the teaching and learning of grammar instruction. They present grammatical concepts in the context of effective writing by using mentor texts. These mentor text examples, which students read from a writer's perspective, deepen students' metacognition of the importance of grammatical concepts and help them see the elements of grammar as tools for strong writing that authors use strategically to make their work as strong as possible. The book provides elementary school teachers with user-friendly lesson plans that they can easily use to put mentor text-based grammar instruction into action in their classrooms. These lesson plans feature published examples of grammatical concepts from contemporary children's and middle-grade books, activities that help students connect their reading and writing experiences, and reflective activities that facilitate students' metacognition of the importance of grammatical concepts. The thorough plans in this book will help teachers put the best practices of grammar instruction into action in concrete, practitioner-oriented ways. *Inclusive Education in Bilingual and Plurilingual Programs*

Mañoso-Pacheco, Lidia, Estrada Chichón, José Luis, Sánchez-Cabrero, Roberto, 2024-02-07 *Implementing bilingual and plurilingual education programs* has ushered in a transformative era for educators worldwide. These programs have redefined teaching practices and thrust diversity into the spotlight as a central concern. During this paradigm shift, the need to cater to diverse students has become paramount, particularly in monolingual European contexts where bilingual and plurilingual instruction is often perceived as a formidable challenge, especially for learners with special needs. *Inclusive Education in Bilingual and Plurilingual Programs* assembles a compendium of international theoretical and practical contributions, shedding light on the intricate interplay between diversity and bilingual or plurilingual education. This book delves into the multifaceted realm of attention to diversity in education where the focus is on tailoring teaching methods to the specific needs of students, encompassing differences in abilities, learning paces, and styles, which empowers students to acquire essential competencies and attain educational objectives at each stage of their academic journey. Secondly, it traverses the landscape of bilingual and plurilingual education, which has emerged in response to the societal employment and economic demands for language proficiency beyond one's mother tongue. This book is essential reading for many educational stakeholders engaged in bilingual or plurilingual education. Teachers at every educational level, along with teacher trainers at tertiary institutions, will find valuable insights for tailoring their pedagogical approaches to the unique needs of their students.

Promoting Reflection on Language Learning Neil Curry, Phoebe Lyon, Jo Mynard, 2023-09-12 This book brings together a wide range of studies, practical applications, and reflective accounts written by academics working at a university in Japan to present a cohesive overview of their collaborative efforts to promote learner reflection within their institution. The book contributes to a shift in language education towards promoting learner responsibility and ownership of their learning.

through developing a deeper sense of awareness of and motivation for the learning process It makes a convincing case for showing that not only is promoting reflection possible but it can also be effectively integrated into language learning activities with significant benefits to the learners The chapters are highly practical for researchers and practitioners with the research chapters containing instruments which make them ideal for replication studies The text includes a wealth of practical tools and activities for practitioners who will be able to experience first hand how to facilitate student success and increase satisfaction
