other types of adjectives with strikingly identical effects This analysis then accounts for the word formation of adjectives such as boring tired drunk which has always been mysterious The book investigates the consequences of this analysis for our understanding of gerunds and V ing N compounds With its comprehensive study of ing forms the book calls into question a number of widely held assumptions regarding the distinction between derivation and inflection and the role of semantics in syntactic and morphological analysis This book is of great interest to researchers and students in linguistics interested in morphology syntax semantics lexical categorisation Kids' Acting for Brain Surgeons Hollywood OS,2007-07 Readers will read about the basic tools they will need to get their kids started in the entertainment industry a bunch of tips and tricks along the way and find out how a so called talent agency scams unsuspecting families out of thousands of dollars Get informed so you don't get ripped off This second edition is completely revised and loaded with useful advice to help parents and children navigate their way through the entertainment industry Just a few of the subjects covered in this book getting professional photos on a budget creating a resume even if you have no credits marketing your children effectively audition do's and don'ts practice scenes and monologues complete listings of casting companies and talent agencies working with kids direct advice from agents stage moms and a working child actor and a reference section of pay rates financial advice industry terms studio addresses and industry phone numbers and Internet links Teacher's Stories, Teacher's Lives Carola Conle,2006 In this book we demonstrate a mode of teacher education that is practical in a non technical sense and relies on Dewey's notion of curriculum as the reconstruction of experience We present a curriculum that emerged through collaborative self reflection and seeks to reconstruct personal histories of schooling As four former preservice teachers and their instructor we engaged in jointly constructed autobiographical inquiry in order to generate data on our own past and on our current histories of teaching and learning We wanted to illuminate parts of our lives in schools that until now belonged to our normal and taken for granted past We did this in order to enjoy certain degrees of awareness and choice as to which of our living stories to reinforce and which to let run out in our classrooms today **Get Ready!
