Administrative Law and Policy of the European Union Herwig C.H. Hofmann, Gerard C. Rowe, Alexander H. Türk, 2011-10-27 This book is a comprehensive detailed and highly systematic treatment which both describes and critically analyses the administrative law and policy of the European Union

Specialized Administrative Law of the European Union Herwig C. H. Hofmann, Gerard C. Rowe, Alexander H. Türk, 2018-11-30 This volume deals with the law governing the administrative implementation of European Union public policy Much of this law is specific to individual policy sectors The volume provides a study of such specialized administrative law for more than twenty sectors This cross sectoral approach allows for detailed comparisons of EU administration in diverse policy fields It identifies situations where legal structures and approaches may be unnecessarily duplicated thus indicating where a comprehensive

general system could be advantageous for both Union law and policy achievement The comparative nature of the study also draws attention to policy fields which have proven to be testing grounds for approaches adopted subsequently in other areas In addition the work highlights the distinctive highly networked and strongly cooperative character of EU administration as a reflection of and a foundation for the operative nature of the European Union as a whole **Comparative Administrative**

Law Susan Rose-Ackerman, Peter L. Lindseth, 2010-01-01 This research handbook is a comprehensive overview of the field of comparative administrative law The specially commissioned chapters in this landmark volume represent a broad multi method approach combining perspectives from history and social science with more strictly legal analyses Comparisons of the United States continental Europe and the British Commonwealth are complemented by contributions that focus on Latin America Africa and Asia The work aims to stimulate comparative research on public law reaching across countries and scholarly disciplines Beginning with historical reflections on the emergence of administrative law over the last two centuries the volume then turns to the relationship of administrative and constitutional law with an additional section focusing on the key issue of administrative independence Two further sections highlight the possible tensions between impartial expertise and public accountability drawing insights from economics and political science as well as law The final section considers the changing boundaries of the administrative state both the public private distinction and the links between domestic and transnational regulatory bodies such as the European Union In covering this broad range of topics the book illuminates a core concern of administrative law the way individuals and organizations across different systems test and challenge the legitimacy of public authority This extensive interdisciplinary appraisal of the field will prove a vital resource for scholars and students of administrative and comparative law Historians of the state looking for a broad overview of a key area of public law reformers in emerging economies donor agencies looking for governance options and policy analysts with an interest in the law policy interface will find this work a valuable addition to their library *EU Administrative Law* Paul

Craig, 2012-03-22 The second edition of *EU Administrative Law* provides comprehensive coverage of the administrative system in the EU and the principles of judicial review that apply in this area The chapters in the first half of the book deal with all the principal variants of the EU administrative regime Thus there are chapters dealing with the history and taxonomy of the EU administrative regime direct administration shared administration Comitology agencies social partners and the open method of coordination The coverage throughout focuses on the legal regime that governs the particular form of administration and broader issues of accountability drawing on literature from political science as well as law The focus in the second part of the book shifts to the principles of judicial review There are detailed chapters covering all principles of judicial review and the discussion of the law throughout is analytical and contextual The discussion in this part of the book begins with a chapter that considers the principles that have informed the development of EU judicial review This is followed by a chapter dealing with the judicial system and the way in which reform could impact on the subject matter of the book

There are then chapters dealing with competence access transparency process law fact and discretion rights equality legitimate expectations two chapters on proportionality the precautionary principle two chapters on remedies and the ombudsman The book paints a comprehensive picture of administrative law as it exists in the EU today *EU Administrative Law* Paul P. Craig, 2006 EU Administrative Law considers the ways in which the EU administers policy the objective being to explicate analyse and evaluate the modes of policy delivery to assess the role of law therein and to draw conclusions about their relative efficacy The approach throughout is contextual and inter disciplinary The focus in Part II shifts to Law and Administration with analysis of the principles of judicial review as they have been developed by the Community courts The chapters consider in depth the principles of judicial review that are applied to control and structure EU administration and that of the Member States when acting in the sphere of EU law The discussion takes full account of the legislative and political initiatives that are relevant to particular issues as well as the contribution made by the Community courts

Specialized Administrative Law of the European Union Herwig Hofmann, Gerard C. Rowe, Alexander Türk, 2018 This edited collection would offer a companion volume to the volume co authored by the same team Administrative Law and Policy of the European Union clarifying and examining the administrative law applicable to different sectors of EU Law

ReNEUAL Model Rules on EU Administrative Procedure Paul Craig, Herwig Hofmann, Jens-Peter Schneider, Jacques Ziller, 2017-06-09 The Research Network on EU Administrative Law ReNEUAL was established in 2009 and now comprises well over one hundred scholars and practitioners active in the field of EU and comparative public law The aim of the network is to contribute to the development of a legal framework in which the constitutional values of the EU can be embedded in the exercise of public authority Drafted by four working groups addressing the main aspects of EU administrative procedure the ReNEUAL Model Rules offer a toolkit for European and domestic authorities seeking to regulate administrative action reinforcing general principles of EU law and identifying on the basis of comparative research best practices in different specific policies of the EU The book includes an extended introduction chapter followed by the Model Rules which are organised into six parts Part I addresses general issues concerning the scope of the Model Rules and their relation to existing rules in EU legislation and Member State law Part II is concerned with rulemaking by EU institutions bodies offices and agencies Part III focuses on single case decision making by EU institutions bodies offices and agencies Part IV addresses contracts of EU institutions bodies offices and agencies Part V discusses mutual assistance between administrations and Part VI addresses inter administrative information management
