Intra-Africa Student Mobility in Higher Education Chika Trevor Sehoole, Jenny J. Lee, 2022-01-01 This book examines student mobility within Africa International student mobility is among the central activities of higher education internationalization As the number of international students increase so do the destinations in both number and geographic diversity Historically international student mobility has followed South North and North North patterns However recent literature show the growth in North South and South South patterns of student mobility There has also been a rise in regional mobility In what is referred to in the book as intra Africa mobility the books explores and analyzes the patterns of intra Africa mobility based on seven African countries South Africa Kenya Uganda Nigeria Ghana Senegal and Egypt The editors and contributors address three central research questions Why did the students choose the country they are studying in Why did they choose the institution they are studying in What are their academic and social experiences in these countries and their respective institutions This book is the first comprehensive exploration of intra Africa student mobility in a field that traditionally centers on the Global North National Budget Framework Paper for the Financial Years ... Media Technology in Education Martin A.M. Gansinger, Ayman Kole, 2023-12-02 This volume offers rare perspectives examining the influence of media technology on learning patterns and behaviours among today's youth in Uganda The various contributions from international scholars discuss general introductory aspects dealing with the fabric and structure of Uganda's society and educational institutions and how they are affected by new media technology and innovations Next to outlining the increasing challenge to unify traditional patterns and the adaptation of media based practices that modern societies are built upon the book offers detailed insight into practical solutions that serve as inspiring examples of how to successfully bridge the gap between the two While titles on youth and media tend to focus on a Western perspective the proposed volume enables a closer look at things in a country and a region often neglected by researchers The work offers a specific examination of media and education provided by national and international scholars *Transforming Research Excellence* McLean, Robert, Tijssen, Robert, Wallace, Matthew L., Kraemer-Mbula, Erika, 2020-01-18 Modern day science is under great pressure A potent mix of increasing expectations limited resources tensions between competition and cooperation and the need for evidence based funding is creating major change in how science is conducted and perceived Amidst this perfect storm is the allure of research excellence a concept that drives decisions made by universities and funders and defines scientists research strategies and career trajectories But what is excellent science And how to recognise it After decades of inquiry and debate there is still no satisfactory answer Are we asking the wrong question Is reality more complex and excellence in science more elusive than many are willing to admit And how should excellence be defined in different parts of the world particularly in lower income countries of the Global South where science is expected to contribute to pressing development issues despite often scarce resources Many wonder whether the Global South is

importing with or without consenting the flawed tools for research evaluation from North America and Europe that are not fit for purpose This book takes a critical view of these issues touching on conceptual issues and practical problems that inevitably emerge when excellence is at the center of science systems Emerging from the capacity building work of the Science Granting Councils Initiative in sub Saharan Africa it speaks to scholars as well as to managers and funders of research around the world Confronting sticky problems and uncomfortable truths the chapters contain insights and recommendations that point towards new solutions both for the Global South and the Global North Sharing Higher Education's Promise beyond the Few in Sub-Saharan Africa Peter Darvas, Shang Gao, Yijun Shen, Bilal Bawany, 2017-11-15 Despite a spectacular expansion of the higher education sector in Sub Saharan Africa the supply of tertiary education has generally failed to keep pace with demand and the region continues to lag all other regions in terms of access to tertiary education This is in part a consequence of deeply entrenched patterns of inequitable access to higher education and the perpetuation of what researchers refer to as elite systems To date access to tertiary education in Sub Saharan Africa has unduly benefitted students drawn from the region s wealthiest households and overall enrollment remains disproportionately male and metropolitan These factors stifle the catalytic potential of higher education corroding its potential for driving economic growth and sustaining poverty reduction Instead patterns of access to tertiary education have generally reinforced and reproduced social inequality instead of eroding its pernicious social and economic effects This report aims to inform an improved understanding of equity in tertiary enrollment in Sub Saharan African countries and to examine the extent to which inequity functions as a bottleneck inhibiting the ability of African universities to effectively drive improvements in overall quality of life and economic competitiveness In our survey of the evidence we also aim to identify which policies most effectively address the challenge of promoting equity of access in SSA tertiary education systems In order to achieve these objectives the report collects generates and analyzes empirical evidence on patterns of equity examines the underlying causes of inequity and evaluates government policies for addressing inequity *African Studies: Breakthroughs in Research and Practice* Management Association, Information Resources, 2020-04-03 Global interest in African studies has been rapidly growing as researchers realize the importance of understanding the impact African communities can have on the economy development education and more As the use acceptance and popularity of African knowledge increases it is crucial to explore how this community based knowledge provides deeper insights understanding and influence on such things as decision making and problem solving African Studies Breakthroughs in Research and Practice examines the politics culture language history socio economic development methodologies and contemporary experiences of African peoples from around the world Highlighting a range of topics such as indigenous knowledge developing countries and public administration this publication is an ideal reference source for sociologists policymakers anthropologists government officials economists instructors researchers academicians and graduate level students in a variety of fields *The Future of Accessibility in International*

Higher Education Alphin Jr., Henry C., Chan, Roy Y., Lavine, Jennie, 2017-05-17 Education is the foundation to almost all successful lives and it is important that a high level of schooling be available on a global scale Studying the trends in accessibility in education will allow educators to improve their own teaching techniques as well as expand their influence to more remote areas in the world The Future of Accessibility in International Higher Education is a comprehensive reference source for the latest scholarly material on emerging methods and trends in disseminating knowledge in university settings Featuring extensive coverage on relevant topics such as e learning economic perspectives and educational technology this publication is ideally designed for educators academics students and researchers interested in expanding their knowledge of global education

Uganda Jörg Wiegratz, Giuliano Martiniello, Elisa Greco, 2018-11-15 For the last three decades Uganda has been one of the fastest growing economies in Africa Globally praised as an African success story and heavily backed by international financial institutions development agencies and bilateral donors the country has become an exemplar of economic and political reform for those who espouse a neoliberal model of development The neoliberal policies and the resulting restructuring of the country have been accompanied by narratives of progress prosperity and modernisation and justified in the name of development But this self celebratory narrative which is critiqued by many in Uganda masks the disruptive social impact of these reforms and silences the complex and persistent crises resulting from neoliberal transformation Bringing together a range of leading scholars on the country this collection represents a timely contribution to the debate around the New Uganda one which confronts the often sanitised and largely depoliticised accounts of the Museveni government and its proponents Harnessing a wealth of empirical materials the contributors offer a critical multi disciplinary analysis of the unprecedented political socio economic cultural and ecological transformations brought about by neoliberal capitalist restructuring since the 1980s The result is the most comprehensive collective study to date of a neoliberal market society in contemporary Africa offering crucial insights for other countries in the Global South
