ADP InTouch Timeclock

With increased scrutiny by the Department of Labor Wage and Hour Division, it is essential to have a time recording tool to help defend against potential regulatory claims and lawsuits.

The ADP InTouch is based on the design of today's most intuitive consumer electronics, providing a modern and simple timekeeping solution that translates to faster employee adoption, faster transactions, and improved productivity in recording time and performing other time and labor management tasks.

Whether clocking in, checking paid time off balances, viewing schedules, or requesting time off, employees will find the simple touch-screen timeclock intuitive and easy to use. What's more, by using the biometric identification or verification, managers will be able to help avoid inflated payroll costs associated with "buddy punching."

Seamless integration with ADP Enterprise eTIME® or Expanded Time & Attendance means employees can view their timecards in real time. It also helps prevent unapproved time before or after scheduled shifts.

Rest assured that InTouch is ideal for today's cloud-centric computing environments, with device-initiated communications capabilities that allow the clock to work over the open Internet while protecting your data using SSL encryption.
