The Computer Engineering Handbook Vojin G. Oklobdzija,2001-12-26 There is arguably no field in greater need of a comprehensive handbook than computer engineering The unparalleled rate of

technological advancement the explosion of computer applications and the now in progress migration to a wireless world have made it difficult for engineers to keep up with all the developments in specialties outside their own References published only a few years ago are now sorely out of date The Computer Engineering Handbook changes all of that Under the leadership of Vojin Oklobdzija and a stellar editorial board some of the industry s foremost experts have joined forces to create what promises to be the definitive resource for computer design and engineering Instead of focusing on basic introductory material it forms a comprehensive state of the art review of the field s most recent achievements outstanding issues and future directions The world of computer engineering is vast and evolving so rapidly that what is cutting edge today may be obsolete in a few months While exploring the new developments trends and future directions of the field The Computer Engineering Handbook captures what is fundamental and of lasting value *Advanced Computer Architecture* KAI. HWANG,2010 *Parallel Computing: Fundamentals, Applications and New Directions* E.H. D'Hollander,G.R. Joubert,Frans Peters,Ulrich Trottenberg,1998-07-22 This volume gives an overview of the state of the art with respect to the development of all types of parallel computers and their application to a wide range of problem areas The international conference on parallel computing ParCo97 Parallel Computing 97 was held in Bonn Germany from 19 to 22 September 1997 The first conference in this biannual series was held in 1983 in Berlin Further conferences were held in Leiden The Netherlands London UK Grenoble France and Gent Belgium From the outset the aim with the ParCo Parallel Computing conferences was to promote the application of parallel computers to solve real life problems In the case of ParCo97 a new milestone was reached in that more than half of the papers and posters presented were concerned with application aspects This fact reflects the coming of age of parallel computing Some 200 papers were submitted to the Program Committee by authors from all over the world The final programme consisted of four invited papers 71 contributed scientific industrial papers and 45 posters In addition a panel discussion on Parallel Computing and the Evolution of Cyberspace was held During and after the conference all final contributions were refereed Only those papers and posters accepted during this final screening process are included in this volume The practical emphasis of the conference was accentuated by an industrial exhibition where companies demonstrated the newest developments in parallel processing equipment and software Speakers from participating companies presented papers in industrial sessions in which new developments in parallel computing were reported □□□□□□□□ □□, Hwang, Kai·□,1999 McGraw Hill
