**Tips for a better sound**

1. Hold your hand at the back of the drum stick, relax your hand, don't hold it too tightly. This will give you more flexibility for playing and produce a clearer & nicer sound.
2. The drop point of the mallets should be at a point in the middle (a little bit near the top) of each tine.
3. When playing, remember to drop the mallet gently, lift it off the tine immediately after hitting, and use the elasticity of the drum stick to play.
4. To play a more balanced and pleasing piece. Use less force when playing the lower notes because the tines are bigger for lower notes, a little force will make enough vibration for a big volume. On the contrary, when playing the high notes, you need to add a little force to play, so the volume of high notes can match the bass.
