Paul Stevens, Todd Svanoe, 2010-03-05 Every workday millions of Christians enter the marketplace Whether as sales associates or engineers auto mechanics or executives Christians are called to serve God in the workplace But most need help integrating faith and work How can you be salt and light on the job Where can you turn for help in developing a biblical and satisfying view of work The Marketplace Annotated Bibliography is the largest and most complete resource for putting work in its proper Christian perspective Pete Hammond R Paul Stevens and Todd Svanoe provide annotated reviews of hundreds of books on topics such as career guidance leisure termination and layoffs business ethics time and financial management critical issues in the workplace evangelism and much more They also include a historical survey of the marketplace faith movement and more than a dozen thematic indexes Pastors vocational counselors professors and laypeople alike will find this book a unique and valuable resource *Technological Entrepreneurship* Ian Chaston, 2017-01-28 This comprehensive book responds to the growing demand to study entrepreneurship as a key driver of innovation and competitive advantage Challenging the existing idea that technological entrepreneurship exists predominantly in SMEs and as a result of market demands the author argues that a commitment to entrepreneurship remains the most effective strategy for sustaining wealth generation for both organisations and entire nations The aim of Technological Entrepreneurship is to provide the reader with additional knowledge and understanding of the concepts associated with the exploitation of technological entrepreneurship and to demonstrate how associated management principles are somewhat different to those utilised in market driven entrepreneurship Validation of presented theoretical concepts is achieved through coverage of processes and practices utilised by real world organisations seeking to achieve maximum wealth generation with specific emphasis on how technological entrepreneurship is the source of disruptive

innovation within service sector organisations and how the philosophy is causing fundamental change in the provision of healthcare
