The Complete Book of AMC Cars Patrick R. Foster, Tom Glatch, 2024-10-29 Get an inside look at the American automaker that rose from the decline of a once thriving independent auto industry to put up a valiant fight against Detroit's Big Three automakers In *The Complete Book of AMC Cars* American Motors Corporation 1954-1988 authors Patrick Foster and Tom Glatch provide a thorough and fully illustrated review of all the production cars offered by AMC from its founding in 1954 to its demise in 1988 including Rambler Metropolitan Ambassador Rebel Marlin Gremlin Hornet Matador AMX Javelin Pacer Eagle Jeep Born from the ashes of Hudson and Nash AMC represented a last attempt at survival for an independent automobile company Thanks to the capable leadership of CEO George Romney the company not only survived but thrived riding on the success of the firm's small economical cars like the Rambler As the market began to shift more toward performance and luxury cars in the 1960s AMC found itself challenged to compete with the output from Ford Chrysler and General Motors The fuel crisis of the 1970s positioned AMC's smaller cars to refill corporate coffers The firm's purchase of the Jeep brand also generated profits but ultimately it was too little too late Even a partnership with French automaker Renault and the introduction of the all-wheel drive Eagle couldn't save AMC In 1987 Chrysler Corporation purchased AMC and the story of the last independent automaker came to an end Foster and Glatch's engaging book covers all of the AMC models as well as racing exploits from its inception to its ultimate demise Whether you are an AMC enthusiast or are simply intrigued by cars and the stories behind them this volume is a must-have for your bookshelf *Popular Mechanics*, 1978-05

"Kelly" Flory, Jr., 2023-11-20

The automotive industry underwent great change in the 1960s and the early 1970s The continuing trend toward market consolidation the proliferation of sizes and nameplates and the need for speed characterized this period loosely labeled as the muscle car era This is an exhaustive reference work to American-made cars of model years 1966-1972 Organized by year and summarizing the market annually it provides a yearly update on each make's status and production figures then details all models offered for that year Model listings include available body styles base prices engine and transmission choices power ratings standard equipment major options and their prices curb weight and dimensions interior and exterior paint color choices changes from the previous year's model and sales figures Also given are assembly plant locations and historical overviews of each model nameplate *Road Hogs* Eric Peters, 2011-06-13

Climb into one of America's classic luxury cars from the 1960s and 1970s swaddle yourself in yards and yards of fine Corinthian leather scan the gigantic dashboard filled with esoteric dials and gauges that you can never hope to understand twist the oversized ignition key and listen to those coffee-can-sized pistons crank over in that enormous V-8 lurking under that vast expanse of hood Feel that throbbing power

burbling beneath an accelerator pedal the size of a Japanese hotel room and you'll know what once made the American auto industry great. Road Hogs celebrates this greatness as expressed through the magnificent performance luxury cars that rolled out of Detroit during the classic era like the Cadillac Eldorado, Chrysler 300, Buick Electra, Chevy Monte Carlo, Buick Riviera and many more. *AMC Muscle Cars : Muscle Car Color History* Larry G. Mitchell, Anybody who wanted to go toe to toe with the Big Three in the 1960s had to produce credible muscle cars. American Motors Corporation did exactly that with the SC Rambler and the incredibly fast AMX. Some argue however that AMC's insistence on pouring its relatively limited resources into the muscle wars ultimately led to its demise. Illustrated throughout with modern photography of restored and factory original cars, archival images, AMC concept drawings, period advertisements and cutaway illustrations, this color history primarily focuses on the conception, development, production and performance of the AMX as well as the Javelin upon which it was based. Special models like the Mark Donohue Signature Edition Javelin along with the less than well received Marlin, Rebel, SST, Hornet, 360, Gremlin X and others are also included. **Popular Mechanics**, 1979-12 Popular Mechanics inspires, instructs and influences readers to help them master the modern world.
