Gruenewald, 2021-07-28 During the global Black Lives Matter protests of 2020 many called upon the United States to finally face its painful past Tim Gruenewald s new book is an in depth investigation of how that past is currently remembered at the national museums in Washington DC Curating America s Painful Past reveals how the tragic past is either minimized or framed in a way that does not threaten dominant national ideologies Gruenewald analyzes the National Museum of American History NMAH the United States Holocaust Memorial Museum USHMM the National Museum of African American History and Culture NMAAHC and the National Museum of the American Indian NMAI The NMAH the nation s most popular history museum serves as the benchmark for the imagination of US history and identity The USHMM opened in 1993 as the United States official Holocaust memorial and stands adjacent to the National Mall Gruenewald makes a persuasive case that the USHMM established a successful blueprint for narrating horrific and traumatic histories Curating America s Painful Past contrasts these two museums to ask why America s painful memories were largely absent from the memorial landscape of the National Mall and argues that social injustices in the present cannot be addressed until the nation s painful past is fully acknowledged and remembered It was only with the opening of the NMAAHC in 2016 that a detailed account of atrocities committed against African Americans appeared on the National Mall Gruenewald focuses on the museum s narrative structure in the context of national discourse to provide a critical reading of the museum When the NMAI opened in 2004 it presented for the first time a detailed history from a Native American perspective that sought to undo conventional museum

narratives However criticism led to more traditional exhibitions and national focus Nevertheless the museum still marginalizes memories of the vast numbers of Indigenous victims to European colonization and to US expansion In a final chapter Gruenewald offers a thought experiment imagining a memory site like the recently opened National Memorial for Peace and Justice Montgomery Alabama situated on the National Mall so the reader can assess how profound an effect projects of national memory can have on facing the past as a matter of present justice

Jameson,Sherene Baugher,2022-02-28 This volume examines evolving trends and transnational perspectives on public interpretation of archaeological and cultural heritage as well as levels of communication from local to regional national and international It is presented in the context of the evolution of cultural heritage studies from the 20th century expert approach to the 21st century people centered approach with public participation and community involvement at all phases of the decision making process Our premise is not just about bringing in community members to be partners in decision making processes some projects are being initiated by the community not the heritage experts In some instances community members are central in initiating and bringing about change rather than the archaeologists or heritage specialists In several cases in the book descendants take the lead in changing heritage narratives The book addresses several central questions Do these actions represent new emphases or more fundamental pedagogical shifts in interpretation Are they resulting in more effective interpretation in facilitating emotional and intellectual connections and meanings for audiences Are they revealing silenced histories Can they contribute to or help mediate dialogues among a diversity of cultures Can they be shared

experiences as examples of good practice at national and international levels What are the interpretation and presentation challenges for the future Cultural heritage as an expression of a diversity of cultures can be an important mediator between pasts and futures In the past people in power from the dominant ethnic racial socio economic gender and religious groups determined the heritage message Minorities were often silenced their participation in the building and growth of a city county or nation s history was overlooked New philosophical methodological trends in public interpretation are reshaping the messages delivered at archaeological cultural heritage sites worldwide The role of the experts as well as the participatory engagement of audiences and stakeholders are being redefined and reassessed This book explores these processes their results and effects on the future The Ruling Ideas Ari Ofengenden,2022-12-09

Ideas that are employed to legitimize and make us consent to authority and its hierarchies also disempower us leaving us anxious depressed and discontent They are constantly hammered into us by the media by our friends and family and by institutions They also come to us by way of films motivational speakers business gurus as well as in the actions we take in our everyday lives and in the experiences of who we are In The Ruling Ideas How They Ruin Society and Make You Miserable Ari Ofengenden examines many of these ideas such as the entrepreneurial self the utility oriented economic man technological progress virtues and values as well as family values God nation and race Ofengenden provides a deft analysis on the one hand of the beliefs we hold the ideas behind them that make us consent to the social order and how we often fool ourselves into believing these ideas on the other hand the author proffers a way to combat these ideas to live without them and develop alternatives **America Reimagined:**
