The Human Capacity for Transformational Change Valerie A. Brown, John A. Harris, 2014-02-24 Pressures for transformational change have become a regular feature of most fields of human endeavour Master thinkers and visionaries alike have reframed existing divisions as connecting relationships bringing together as dynamic systems the supposed opposites of parts and wholes stability and change individuals and society and rational and creative thinking This reframing of opposites as interconnected wholes has led to realisation of the power of a collective mind This book offers ways and means of creating the synergies that are crucial in influencing a desired transformational change towards a just and sustainable future It describes how and why our current decision making on any complex issue is marked by clashes between the different interests involved More optimistically the book pursues a mode of thinking that brings together government specialised and community interests at the local regional and personal scales in a collective transformation process Practical examples signal the emergence of a new knowledge tradition that promises to be as powerful as the scientific enlightenment Written in accessible language this book will be insightful reading for anyone struggling with transformational change especially researchers students and professionals in the fields of administration governance environmental management international development politics public health public law sociology and community development Dead Men Tell No Tales - 60+ Pirate Novels, Treasure-Hunt Tales & Sea Adventure Classics Captain Charles Johnson, Howard Pyle, Ralph D.
