This practical book provides a framework to assist student nurses in developing skills as decision makers.

Advancing teaching and learning in health sciences across healthcare professionals Mário Gomes, Roger Azevedo, Ana Grilo, Ana Isabel Gomes Salgado, 2023-10-25
Clinical Judgement and Decision-Making in Nursing and Inter-Professional Healthcare Mooi Standing, 2010-08-16
Mooi Standing's book provides an excellent application of the principal concepts of Cognitive Continuum Theory. Her presentation is clear, accurate, and her inferences show that she has a first-rate grasp of the implications of the theory and what it means for the care of patients. Her work should stand as a monument to the application of psychological theory to nursing care. Professor Emeritus Kenneth R. Hammond, University of Colorado, USA. Sound clinical judgement and decision making is vital to the delivery of high-quality patient-centred nursing and interprofessional healthcare. This book integrates the theory and practice of decision making to guide and enhance practitioners' understanding and clinical expertise. Mooi Standing presents relevant contemporary theory and research that relates decision making to Professional identity, Organization of healthcare, Developing knowledge and skills, Selecting and applying the most appropriate intervention in clinical practice. Real case studies written by various advanced practitioners demonstrate how to apply theory to practice in reviewing, explaining, and continually developing clinical judgement and decision making skills. A patient's account of care received for a serious illness provides a valuable patient-centred insight. The author's new reflexive pragmatism model summarizes the key knowledge, skills, values, and processes of clinical judgement and decision making for readers to apply in reviewing and enhancing their own clinical practice. Extensive reflective activities and self-assessment tools are included throughout the book. *Clinical Judgement and Decision Making* is essential reading for qualified nurses, midwives, and allied health professionals undertaking CPD modules in judgement and decision making, evidence-based practice, and reflective practice or studying to be advanced practitioners.

The Nursing Informatics Implementation Guide Eleanor Callahan Hunt, Sara Breckenridge Sproat, Rebecca Rutherford Kitzmiller, 2013-03-09 Health institutions are investing in and fielding information technology solutions at an unprecedented pace With the recommendations from the Institute of Medicine around information technology solutions for patient safety mandates from industry groups such as Leapfrog about using information systems to improve health care and the move toward evidence based practice health institutions cannot afford to retain manual

practices The installation of multi million dollar computerized health systems represents the very life blood of contemporary clinical operations and a crucial link to the financial viability of institutions Yet the implementation of health information systems is exceptionally complex expensive and often just plain messy The need for improvement in the art and science of systems implementation is clear up to 70 80% of information technology installations fail The reasons are multifaceted ranging from the complexity of the diverse workflows being computerized the intricate nature of health organizations the knowledge and skills of users to other reasons such as strategies for obtaining key executive support weaving through the politics peculiar to the institution and technical facets including the usability of systems Thus the art and science of successfully implementing systems remains deeply layered in elusiveness Still given the pervasiveness of system implementations and the importance of the outcomes this is a critical topic especially for nurses and informatics nurse specialists
