Making Sense of Public Opinion Claudia Strauss, 2012-10-15 Questions about immigration and social welfare programs raise the central issues of who belongs to a society and what its members deserve Yet the opinions of the American public about these important issues seem contradictory and confused Claudia Strauss explains why public opinion on these issues and many others is formed not from liberal or conservative ideologies but from diverse vernacular discourses that may not fit standard ideologies but are easy to remember and repeat Drawing on interviews with people from various backgrounds Strauss identifies and describes 59 conventional discourses about immigration and social welfare and demonstrates how we acquire conventional discourses from our opinion communities *Making Sense of Public Opinion American Discourses about Immigration and Social Programs* explains what conventional discourses are how to study them and why they are fundamental elements of public opinion and political culture

Government Ideology, Economic Pressure, and Risk Privatization Alexander Horn, 2025-10-01 From the 1980s on a privatization of labor market related risks has occurred in the OECD Governments have cut the generosity of social programs and tightened eligibility rules particularly for the unemployed *Government Ideology Economic Pressure and Risk Privatization How Economic Worldviews Shape Social Policy Choices in Times of Crisis* analyses these curtailments for eighteen countries over the course of four decades and provides an encompassing comparative assessment of the interactive impact of government ideology and economic pressure It demonstrates that the economic worldviews of governments are the most important factor in explaining why cuts are implemented or not While ideas of non intervention in the market underlie cuts in generosity ideas of equality and fairness are at the heart of stricter eligibility criteria This book also shows that the impact of the economic pressures often held responsible for the marginalization of politics and government ideology is in fact conditional on the specific ideological configuration

Dietrich,2014-08-07 *Rebellious Conservatives* analyzes three movements the anti abortion pro life movement the anti illegal immigration movement and the Tea Party to show how perceptions of threats to their privileges drives conservative protest
