

Styles of Anger – Assessment

Anger is a normal healthy emotion, and people use various communication styles to express their anger. It is important to note, that there is no wrong anger style as presented below. Awareness of our default style is the goal, so we can choose a preferred style to match the situation. Knowing our own anger style can help us be prepared when defusing a potentially violent situation. Use the attached assessment tool to find out your anger style.

Using the scale on the right, indicate how these statements reflect your actions and feelings when dealing with anger in the workplace.

_____ 08	Being just a little manipulative increases my chance of success.	_____ 24	If people are angry with me, my first reaction is to make excuses for my actions.
_____ 09	It's better to maintain relationships and stay quiet than to express myself.	_____ 25	I don't take positions that will create controversy or stir up discord.
_____ 10	Sometimes it's best to act first and then think.	_____ 26	I put my foot down and don't intend to move it.
