Dailey, Martin Kavka, Lital Levy, 2023-09-08 Spanning the fields of literature history philosophy and theology **Unsettling Jewish Knowledge** adopts a fresh approach to the study of Jewish thought and culture By creatively

foregrounding the role of emotions senses and the imagination in Jewish experience the book invites readers to consider what it means for Jewish identity and experience to be constituted outside the frameworks of reasoned thought and inquiry The collection s eight essays offer innovative and provocative approaches to a diverse array of topics including modern Jewish Christian relations the book of Isaiah contemporary Jewish fiction and philosophical meditations on Jewish law Their bold interpretations of Jewish texts and histories are centered on questions of faith loss prejudice and enchantment and the darker implications of these questions The book s essays also illuminate the importance of desire as a key motivating force in the pursuit of knowledge Weaving together insights from several disciplines Unsettling Jewish Knowledge challenges us to grapple with the unexpected the unconventional and the uncomfortable aspects of Jewish experience and its representations Contributors Anne C Dailey John Efron Yael S Feldman Galit Hasan Rokem Martin Kavka Lital Levy Shaul Magid Eva Mroczek Paul E Nahme Eli Schonfeld Shira Stav **Spenser's Afterlife from Shakespeare to Milton** Jennifer C. Vaught, 2025-10-01 This study explores how Shakespeare Ben Jonson Andrew Marvell and Milton among many others appropriated Spenser s long and shorter poems for creating comedy parody and satire Their appropriations which were widely influential on communities of readers writers and intertextual networks from 1590 1660 left an abiding impression of Spenser as a biting satirist Spenser s Afterlife from Shakespeare to Milton The Faerie Queene as Intertextual Environment is the first study to combine the reception history of The Faerie Queene with ecocriticism animal studies and posthumanist tenets of vital materialism and the power of things This poem functions as a powerful nonhuman agent that transforms how readers respond to their environments The Faerie Queene and its afterlives move readers to perceive flaws in political social and religious figureheads and institutions to envision better ones *Rulers and Raptors* Nadir Weber, 2025-10-01 *Rulers and Raptors* argues that by studying animal biographies we gain a new perspective on early modern court society Combining court studies and historical animal studies it brings together two vibrant but rarely combined fields of research and shows how the presence of non human creatures shaped everyday life and political representation in Europe s dynastic centres Through an in depth analysis of the symbolic and practical functions of birds of prey in courtly life the book demonstrates that in the seventeenth and eighteenth centuries falconry was much more than a hunting technique it served as a model for the mutual empowerment of the sovereign and his noble subjects the essence of the Baroque style of government that gave rise to European court society Weber pays close attention to the birds life trajectories and thereby shines a spotlight on a large network of agents including rural bird catchers bourgeois animal traders and noble falconers at court who made the aerial spectacles possible Focusing on these peoples interactions with the raptors the book proposes to rethink early modern human animal relations showing that falcons escaped clear distinctions between wild and domestic nature and civilization The book thus simultaneously shows how early modern European rulers valued raptors as a key symbol of their power and how this very symbol of monarchical sovereignty pointed to the limits of human control over the animal kingdom on the eve

The Perfection of Nature Mackenzie Cooley, 2022-10-26 A deep history of how Renaissance Italy and the Spanish empire were shaped by a lingering fascination with breeding The Renaissance is celebrated for the belief that individuals could fashion themselves to greatness but there is a dark undercurrent to this fabled era of history The same men and women who offered profound advancements in European understanding of the human condition and laid the foundations of the Scientific Revolution were also obsessed with controlling that condition and the wider natural world Tracing early modern artisanal practice Mackenzie Cooley shows how the idea of race and theories of inheritance developed through animal breeding in the shadow of the Spanish Empire While one strand of the Renaissance celebrated a liberal view of human potential another limited it by biology reducing man to beast and prince to stud Race Cooley explains first referred to animal stock honed through breeding To those who invented the concept race was not inflexible but the fragile result of reproductive work As the Spanish empire expanded the concept of race moved from nonhuman to human animals Cooley reveals how as the dangerous idea of controlled reproduction was brought to life again and again a rich complex and ever shifting language of race and breeding was born Adding nuance and historical context to discussions of race and human and animal relations The Perfection of Nature provides a close reading of undertheorized notions of generation and its discontents in the more than human world

Poetics of Angling in Early Modern England Myra E. Wright, 2018-10-25 Myra Wright takes ecocritical studies on an interdisciplinary turn toward the water with her new research monograph *The Poetics of Angling in Early Modern England* Identifying the lively presence of both literal and metaphorical images of sport fishing in all kinds of early modern writing this book aims to instill deep sympathy between the art of angling and the art of writing and for the centrality of fish in early modern conceptions of humanity Posthumanism Pramod K. Nayar, 2014 This timely book examines the rise of

posthumanism as both a material condition and a developing philosophical ethical project in the age of cloning gene engineering organ transplants and implants Nayar first maps the political and philosophical critiques of traditional humanism revealing its exclusionary and speciesist politics that position the human as a distinctive and dominant life form He then contextualizes the posthumanist vision which drawing upon biomedical engineering and techno scientific studies concludes that human consciousness is shaped by its co evolution with other life forms and our human form inescapably influenced by tools and technology Finally the book explores posthumanism's roots in disability studies animal studies and bioethics to underscore the constructed nature of normalcy in bodies and the singularity of species and life itself As this book powerfully demonstrates posthumanism marks a radical reassessment of the human as constituted by symbiosis assimilation difference and dependence upon and with other species Mapping the terrain of these far reaching debates Posthumanism will be an invaluable companion to students of cultural studies and modern and contemporary literature
