The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all inclusive A Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5 000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre: i.e. animated, drama, sports, mystery, adventure, etc. as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Aesthetics of Failure Zander Brietzke, 2001-03-15 Critic Clive Barnes once called Eugene O'Neill the world's worst great playwright and Brooks Atkinson called him a tragic dramatist with a great knack for old-fashioned melodrama. These descriptions of the man can also be used to describe his work. Despite the fact that O'Neill is the only American playwright to win the Nobel Prize for Literature and his last works are some of America's finest, most of his published works are not good. This work closely examines how O'Neill's failures as a playwright are inspiring and how his disappointments are reflections of his own theory that tragedy requires failure, a theory that is evident in his work. Conflicts in O'Neill's plays are studied at the structural level with attention paid to genre, language, or dialogue, characters, space, and time elements and action. Included is information about O'Neill's life and a chronological listing of all of his 50 plays with basic details such as production history, principal characters, dramatic action, and a brief commentary.
