Proceedings of The International Conference on Inter Disciplinary Research in Engineering and Technology 2015 Kokula Krishna Hari Kunasekaran, Vignesh R, 2015-04-30 Welcome to the International Conference on Inter Disciplinary Research in Engineering and Technology ICIDRET 2015 in DSIIDC Government of NCT New Delhi India Asia on 29 30 April 2015 If this is your first time to New Delhi you need to look on more objects which you could never forget in your lifetime There is much to see and experience at The National Capital of Republic of India The concept of Inter Disciplinary research was a topic of focus by various departments across the Engineering and Technology area Flushing with major areas this ICIDRET 15 has addressed the E T areas like Mechanical Engineering Civil Engineering Electrical Engineering Bio Technology Bio Engineering Bio Medical Computer Science Electronics Communication Engineering Management and Textile Engineering This focus has brought a new insight on the learning methodologies and the terminology of accepting the cross definition of engineering and the research into it We invite you to join us in this inspiring conversation I am pretty sure that this conference would indulge the information from the various parts of the world and could coin as a global research gathering With more and more researchers coming into ICIDRET this event would be as an annual event This conference is sure that this edition and the future edition will serve as a wise platform for the people to come with better research methodologies integrating each and every social component globally If there would have been a thought of not integrating the RJ45 and few pieces of metal plastic along with a PCB today we could haven t used the telephones and mobile phones With an ear mark inspiration and constant support from the Global President Dr S Prithiv Rajan ASDF International President Dr P Anbuoli this publication stands in front of your eyes without them this would haven t been possible in a very shortest span Finally I thank my family friends students and colleagues for their constant encouragement and support for making this type of conference Kokula Krishna Hari K Editor in Chief www.kokulakrishnaharik.in

Translating Healthcare Through Intelligent Computational Methods C. Ram Kumar, S. Karthik, 2023-06-07 This book provides information on interdependencies of medicine and telecommunications engineering and how Covid exemplifies how the two must rely on each other to effectively function in this era The book discusses new techniques for medical service improvisation such as clear cut views on medical technologies The authors provide chapters

on processing of medical amenities using medical images the importance of data and information technology in medicine and machine learning and artificial intelligence in healthcare Authors include researchers academics and professionals in the field of communications engineering with a variety of perspectives *Handbook of Research on Innovations and Applications of AI, IoT, and Cognitive Technologies* Zhao, Jingyuan, Kumar, V. Vinoth, 2021-06-25 Recently artificial intelligence AI the internet of things IoT and cognitive technologies have successfully been applied to various research domains including computer vision natural language processing voice recognition and more In addition AI with IoT has made a significant breakthrough and a shift in technical direction to achieve high efficiency and adaptability in a variety of new applications On the other hand network design and optimization for AI applications addresses a complementary topic namely the support of AI based systems through novel networking techniques including new architectures as well as performance models for IoT systems IoT has paved the way to a plethora of new application domains at the same time posing several challenges as a multitude of devices protocols communication channels architectures and middleware exist Big data generated by these devices calls for advanced learning and data mining techniques to effectively understand learn and reason with this volume of information such as cognitive technologies Cognitive technologies play a major role in developing successful cognitive systems which mimic cognitive functions associated with human intelligence such as learning and problem solving Thus there is a continuing demand for recent research in these two linked fields The Handbook of Research on Innovations and Applications of AI IoT and Cognitive Technologies discusses the latest innovations and applications of AI IoT and cognitive based smart systems The chapters cover the intersection of these three fields in emerging and developed economies in terms of their respective development situation public policies technologies and intellectual capital innovation systems competition and strategies marketing and growth capability and governance and relegation models These applications span areas such as healthcare security and privacy industrial systems multidisciplinary sciences and more This book is ideal for technologists IT specialists policymakers government officials academics students and practitioners interested in the experiences of innovations and applications of AI IoT and cognitive technologies *Abstract Book of the International Congress on Health Sciences and Medical Technologies 2018* Abdeldjalil KHELASSI, *Abstract Book of the International Congress on Health Sciences and Medical Technologies 2018* *Hypercrime* Michael McGuire, 2007-12-06 *Hypercrime* develops a new theoretical approach toward current reformulations in criminal behaviours in particular the phenomenon of cybercrime Emphasizing a spatialized conception of deviance one that clarifies the continuities between crime in the traditional physical context and developing spaces of interaction such as a cyberspace this book analyzes criminal behaviours in terms of the destructions degradations or incursions to a hierarchy of regions that define our social world Each chapter outlines violations to the boundaries of each of these spaces from those defined by our bodies or our property to the more subtle borders of the local and global spaces we inhabit By treating cybercrime as but one instance of

various possible criminal virtualities the book develops a general theoretical framework as equally applicable to the as yet unrealized technologies of criminal behaviour of the next century as it is to those which relate to contemporary computer networks Cybercrime is thereby conceptualized as one of a variety of geometries of harm merely the latest of many that have extended opportunities for illicit gain in the physical world Hypercrime offers a radical critique of the narrow conceptions of cybercrime offered by current justice systems and challenges the governing presumptions about the nature of the threat posed by it Runner up for the British Society of Criminology Book Prize 2008

Advancing Environmental Justice for Marginalized Communities in India Alan Diduck,Kirit Patel,Aruna Kumar Malik,2021-09-16 This interdisciplinary collection examines social equity and environmental justice in India It assesses the effectiveness of environmental policies and institutions in rendering justice for marginalized communities while ensuring protection of the environment It also analyses the influence of the neoliberal state and its political economies on the development and outcomes of these policies and institutions The book provides a unique perspective on environmental justice because of its consistent emphasis on social justice rather than the prevailing predominant analyses from legal or environmental perspectives It explores the themes of effectiveness and equity as they pertain to public policy instruments such as environmental impact assessment environmental licensing and enforcement public hearings and environmental activism strategies The four interlinked dimensions of environmental justice namely recognitional justice procedural justice distributive justice and restorative justice provide the core of the book s conceptual framework The contributions draw on ideas and methods from development studies environmental geography environmental law and policy natural resource management public administration and political economy The book concludes by considering planning policy and institutional reforms and community based initiatives that are needed to promote and protect environmental justice in India Offering an important reference for researchers and scholars this book will appeal to those in law geography environmental studies natural resource management development studies sociology and political science It will also be of interest to community based researchers environmentalists and other civil society activists natural resource managers and policy makers [Annual Index/abstracts of SAE Technical Papers](#)
