Transformation and Empowerment through Education Raqib Chowdhury, 2018-11-19 *Transformation and Empowerment through Education* challenges the normalisation of Western discourses as the optimal choice for empowering education. The book aims to reconstruct our relationship with education and employs contemporary theories in order to understand some of the most persistent phenomena in contemporary education and its role in our lives. Written by professionals with experience of a wide range of academic and institutional conventions and traditions and from diverse ethnocultural backgrounds, this book effectively presents a global perspective on educational practices both inside and outside the classroom. The range of topics covered includes equity access, inclusivity, social justice, leadership and the internationalisation of teaching. This book, based on empirical studies using key methodologies, is ideal for academics and postgraduate researchers interested in critical pedagogy, educational studies and educational linguistics, as well as educators and policymakers around the world.

Ethnography for Designers Galen Cranz, 2016-02-26 *Ethnography for Designers* teaches architects and designers how to listen actively to the knowledge people have about their own culture. This approach gives structure to values and qualities. It does this by noting the terms and underlying structure of thought people use to describe aspects of their culture. By responding to underlying cognitive patterns, the architect can both respond to the user and interpret creatively. Thus, ethno-semantic methods can help designers to enhance their professional responsibility to users and at the same time to feel fulfilled creatively. This book is a practical guide for those teaching social factors and social research methods to designers and for those using these methods in practice.

Completing Your Qualitative Dissertation: A Road Map From Beginning to End Linda Dale Bloomberg, Marie Volpe, 2012-04-26 Graduate students often struggle with turning qualitative research projects into a master's thesis or doctoral dissertation because the research itself is inherently messy. *Completing Your Qualitative Dissertation: A Roadmap From Beginning to End*, Second Edition, helps address that challenge. Linda Dale Bloomberg and Marie Volpe have distilled decades of experience of dissertation advisement and successful doctoral defenses into this highly practical reference for graduate students. They focus on finding and articulating a clear research problem, purpose and questions; laying out a research design that will lead to gathering the right kind of data and support; the right kind of analysis and writing up and defending the study. To help, they provide working tools: an integrative summary discussion at the end of each chapter, comprehensive checklists and an annotated bibliography in each chapter.
