Rethinking the Music Business Guy Morrow, Daniel Nordgård, Peter Tschmuck, 2022-09-07. COVID-19 had a global impact on health, communities and the economy. As a result of COVID-19, music festivals, gigs and events were canceled or postponed across the world. This directly affected the incomes and practices of many artists and the revenue for many entities in the music business. Despite this crisis, however, there are pre-existing trends in the music business: the rise of the streaming economy, technological change, virtual and augmented reality, blockchain, etc., and new copyright legislation. Some of these trends were impacted by the COVID-19 crisis, while others were not. This book addresses these challenges and trends by following a two-pronged approach: the first part focuses on the impact of COVID-19 on the music business, and the second features general perspectives. Throughout both parts, case studies bring various themes to life. The contributors address issues within the music business before and during COVID-19. Using various critical approaches for studying the music business, this research-based book addresses key questions concerning music contexts, rights, data and COVID-19. *Rethinking the music business* is a valuable study aid for undergraduate and postgraduate students in subjects including the music business, cultural economics, cultural management, creative and cultural industries studies, business and management studies and media and communications. Applied Artificial Intelligence in Business Leong Chan, Liliya Hogaboam, Renzhi Cao, 2022-07-19. This book offers students an introduction to the concepts of big data and artificial intelligence (AI) and their applications in the business world. It answers questions such as: what are the main concepts of artificial intelligence and big data? What applications for artificial intelligence and big data analytics are used in the business field? It offers application-oriented overviews and cases from different sectors and fields to help readers discover and gain useful insights. Each chapter features discussion questions and summaries. To assist professors in teaching the book, supplementary materials will include answers to questions and presentation slides. *Social Convergence in Times of Spatial Distancing: The Role of Music During the COVID-19 Pandemic* Niels Chr. Hansen, Melanie Wald-Fuhrmann, Jane Whitfield Davidson, 2022-07-19.
