

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Diagnosis and

Management Guide for Anorectal Disease Waqar Qureshi, 2024-06-01 Many gastroenterologists are presented with patients complaining of one or more of several anorectal symptoms. Patients expect that a gastroenterologist can treat their symptomatic hemorrhoids or anal fissures or diagnose accurately their rectal bleeding. Today the evaluation and treatment of these common ailments is not included within the core curriculum of most gastrointestinal fellowship training programs and therefore has not been incorporated into a typical GI practice. *Diagnosis and Management Guide for Anorectal Disease: A Clinical Reference* looks to fill that void. Dr. Waqar Ahmed Qureshi states that most of these perianal and anorectal problems can be successfully treated non surgically. *Diagnosis and Management Guide for Anorectal Disease: A Clinical Reference* reviews a number of diseases that gastroenterologists should be able to effectively manage in their office which eliminates extra cost, inconvenience and frustration for their patients. A few of the topics that can be found inside: *Anatomy and Examination, Anatomy and Physiology of the Pelvic Floor, Benign Anorectal Conditions, Hemorrhoids, Anal Fissures and Anal Pruritus, Benign Soft Tissue, Perianal, Perineal and Complicated Conditions, Pilonidal Disease, Anorectal IBD, Management and Defecation Disorders, Neoplasms, Anal Carcinoma and screening high risk groups*. Teaching for Equity in Complex Times Jamy Stillman, Lauren Anderson, 2017-04-28 In schools serving high concentrations of bilingual learners it can be especially challenging for teachers to maintain commitments to equity minded instruction while meeting the demands of new educational policies including national standards. This book details how one school integrated equity pedagogy into standards based curriculum and produced exemplary levels of achievement. As the authors illustrate however the schools dual commitment to bilingual education and standards based reform engendered numerous complex tensions. Specifically the authors describe teachers attempts to balance demands for rigor and content coverage within their high performing school and with their diverse student population. This timely book illustrates what can happen when a schools teachers embrace equity pedagogy while navigating policy related pressures. It offers a cogent counternarrative to traditional accounts of standards based reform especially for emerging bilingual students.

Research for Educational Change Jill Adler, Anna Sfard, 2016-06-17 *Research for Educational Change* presents ways in which educational research can fulfil its commitments to educational practice. Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident. The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice. In the first part of the book four teams of researchers use different

methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research
