Resources in Education ,2001-10 **I-search for Success** Donna Duncan,Laura Lockhart,2005 Extending the authors previous book I Search You Search We All Learn to Research Neal Schuman 2000 this title takes readers step by step through a unit for grades three and four from planning to assessment Large boxed figures interspersed throughout the text include I Search forms worksheets organizational tools and lists of resources for further information The accompanying CD ROM contains the collaborative planning guide the I Search journal for students and a PowerPoint presentation for professional development found in the book with all of the figures incorporated for easy modification and printing This is a valuable resource guide for teachers and librarians using or planning to use the I Search method Booklist **Poverty and Discrimination** Kevin Lang,2011-02-11 Many ideas about poverty and discrimination are nothing more than politically driven assertions unsupported by evidence And even politically neutral studies that do try to assess evidence are often simply unreliable In Poverty and Discrimination economist Kevin Lang cuts through the vast literature on poverty and discrimination to determine what we actually know and how we know it Using rigorous statistical analysis and economic thinking to judge what the best research is and which theories match the evidence this book clears the ground for students social scientists and policymakers who want to understand and help reduce poverty and discrimination It evaluates how well antipoverty and antidiscrimination policies and programs have worked and whether they have sometimes actually made the problems worse And it provides new insights about the causes of and possible solutions to poverty and discrimination The book begins by asking Who is poor and by giving a brief history of poverty and poverty policy in the United States in the twentieth century including the Welfare Reform Act of 1996 Among the topics covered are the changing definition of poverty the relation between economic growth and poverty and the effects of labor markets education family composition and concentrated poverty The book then evaluates the evidence on racial discrimination in areas such as education employment and criminal justice as well as sex discrimination in the labor market and assesses the effectiveness of antidiscrimination policies Throughout the book is grounded in the conviction that we must have much better empirical knowledge of poverty and discrimination if we hope to reduce them **Research in Education** ,1974 *Fertilizers, Pills & Magnetic Strips* Gene V Glass,2008-03-01 Now available for Kindle Click here We shape our tools and then they shape us With these words Kenneth Boulding captured one of the great truths of the modern world In Fertilizers Pills and Magnetic Strips Gene V Glass analyzes how a few key technological inventions changed culture in America and how public education has changed as a result Driving these changes are material self interest and the desire for comfort and security both of which have transformed American culture into a hyper consuming xenophobic society that is systematically degrading public education Glass shows how the central education policy debates at the start of the 21st century vouchers charter schools tax credits high stakes testing bilingual education are actually about two underlying issues how can the costs of public education be cut and how can the

education of the White middle class be quasi privatized at public expense Working from the demographic realities of the past thirty years he projects a challenging and disturbing future for public education in America Resources in Vocational Education ,1978 **Catalog of Copyright Entries.
