Ethnography and the Evocative World of Policing Matthew Bacon, Bethan Loftus, Mike Rowe, 2023-12-04 This book demonstrates the unique contribution police ethnographies make to our understanding of policing cultures and practices in a variety of international settings. It features contemporary examples of police ethnographies that demonstrate the continuing value of ethnographic work to our understanding of policing. The first section of the book focuses on the police and Anglo-American policing. The second section is international in scope and seeks to enrich our understandings of policing beyond the police. Chapters explore police interactions during a stop and search and at a carnival. They peer behind the scenes at the control room and at the use of intelligence. We listen in to the experiences of new recruits and the stories told in canteens. They also take us into the world of private security agencies to Kenya and to Vietnam. The book explores the position of ethnographers asking whether we do too much with rather than on the police and whether our work reveals more about us as academics than them as officers. Together they are revealing of a changing policing landscape. Ethnography and the Evocative World of Policing demonstrates the unique value of ethnographic work in the fields of policing studies and criminology. It will be a key resource for scholars and researchers of policing, criminology, sociology, law and research methods. The chapters in this book were originally published in two special issues of Policing and Society.

The Special Constabulary Karen Bullock, Andrew Millie, 2017-07-06 Special constables are warranted officers retained within British constabularies. Wearing similar uniforms, carrying the same personal protective equipment and holding identical powers to enforce the criminal law, special constables are to all intents and purposes indistinguishable from their colleagues in the regular police service. However, very little is documented about the experiences and motivations of special constables, the roles they play in contemporary policing or the impact that they have on the police organisation. This book draws together academics and practitioners to provide a valuable insight into historical, international and contemporary themes pertinent to the historical development and contemporary operation of the special constabulary. The book critically considers the origins of the special constabulary and the political, social and economic factors which led to its evolution over time. It compares and contrasts the organisation, functions and status of the special constabulary with other auxiliary forces, notably from the United States. The book also contributes to theoretical understanding of contemporary policing, to debates about the roles and operation of the mixed economy of provision and informs policy and practice in the United Kingdom and beyond.

Decentralization and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2019-09-10 This collection of essays assesses the efforts of African governments to constitutionalise decentralisation, be it in the form of federalism, local government or traditional authorities. Since the end of the Cold War, jurisdictions across Africa have witnessed an ostensible return to multi-party democracy within the paradigm of constitutionalism and the rule of law. Linked to the democratisation process, many countries took steps to decentralize power by departing from the heavily centralized systems inherited from colonial regimes. The centralization of power, typically characterized by the personalization and concentration of power in the

hands of leaders and privileged elites in capital cities mostly resulted in repressive regimes and fragile states As decentralisation is a response to these challenges this volume analyses the dynamic relationship between the efforts to implement decentralization and presence or absence of constitutionalism This volume examines a variety of forms and degrees of decentralization found across Africa It advances a new understanding of trends and patterns and facilitates the exchange of ideas among African governments and scholars about the critical role that decentralisation may play in democratization of and constitutionalism in Africa
