**Nigeria's Fourth Republic, 1999-2021** Michael Nwankpa, 2022-11-18 This book reflects on Nigeria's fourth republic the country's longest democratic period since it gained independence from Great Britain It argues that although constitutional or political democracy has lasted for over two decades in Nigeria and seen three successful democratic changes of power Nigeria's democracy remains largely militarised During Nigeria's fourth republic political and socio economic affairs have been increasingly dominated by a pervasive military presence and ideology which has seen a redistribution of resources and government funds away from social programmes into an increase in security budgets weapons proliferation and internal military interventions and occupations This institutionalisation of violence has turned the country into a national security state where the rule of force and violence rather than dialogue and compassion reflect everyday reality Whilst acknowledging

the history of militarisation during colonial and military rule this book makes a compelling argument for considering the distinct character of the Nigerian nation state's path to militarisation over the last 20 years of experimentation with democracy This book's fresh insights into the fourth republic's path to militarisation will be of interest to researchers of African politics security and development      Labour Law Rules! Third Edition Marie McGregor, 2017-11-17 Labour Law Rules is a book designed primarily as an introductory text for students encountering labour law for the first time whether their goal is a law degree or some other discipline involving a basic knowledge of the labour relations regulatory regime in South Africa In the past two years since publication of the first edition of Labour Law Rules some significant events took place which impacted on labour law resulting in a number of changes proposed to reform labour law The new edition of Labour Law Rules aims to lay a sound and up to date foundation of basic labour law rules which will enable students to be empowered to assist in shaping the future working environment and laws of the country The second edition of the bestselling text book Labour Law Rules continues to provide a highly accessible text on labour equity social security skills development and related laws fully updated to include the latest changes and amendments in labour law in South Africa It discusses these laws against the backdrop of South Africa as a member state of the ILO and the economic and socio economic context in the country      *The Oxford Handbook of Peace History* Charles F. Howlett, Christian Philip Peterson, Christian Peterson, Deborah D. Buffton, David L. Hostetter, 2023 The Oxford Handbook of Peace History uniquely explores the distinctive dynamics of peacemaking across time and place and analyzing how past and present societies have created diverse cultures of peace and applied strategies for peaceful change The analysis draws upon the expertise of many well respected and distinguished scholars from disciplines such as anthropology economics history international relations journalism peace studies sociology and theology This work is divided into six parts The first three sections address the chronological sweep of peace history from the Ancient Egyptians to the present while the last three cover biographical profiles of peace advocates key issues in peace history and the future of peace history A central theme throughout is that the quest for peace is far more than the absence of war or the pursuit of social justice ideals Students and scholars alike will appreciate that this work examines the field of peace history from an international perspective and expands analysis beyond traditional Eurocentric frameworks This volume also goes far beyond previously published handbooks and anthologies in answering what are the strengths and limits of peace history as a discipline and what can it offer for the future It also has the unique features of a state of the field introduction with a detailed treatment of peace history historiography and a chapter written by a noted archivist in the field that provides a comprehensive list of peace research resources It is a work ably suited applicable for classrooms and scholarly bookshelves      **Rogue Allies** Bruce E. Bechtol Jr., Anthony N. Celso, 2025-05-13 In *Rogue Allies* The Strategic Partnership between Iran and North Korea Bruce E Bechtol Jr and Anthony N Celso examine the influence of two rogue states whose rebellion against the United States and US backed countries has serious consequences for international

relations Iran and North Korea have profited from illegal activities such as the arming of terrorist organizations in attempts to disrupt peace efforts in the Middle East and East Asia and to destabilize the rules based order of the world Bechtol and Celso uncover the origins of this decades long alliance consider elements that these two nation states have in common and explain how their relationship undermines neighboring regions The authors draw from revealing interviews with Iranian and North Korean defectors as well as firsthand accounts from other sources providing crucial additions to this body of research While some scholars have compared and contrasted Iran and North Korea few have delved into how this partnership works to achieve its far reaching impact By assessing key aspects of the Iran North Korea nexus including military ideological economic and environmental forces *Rogue Allies* investigates the link between two volatile states and the ensuing implications for global security **Cross Border Security in the Southern African Region** Inocent Moyo,2024-07-29

This book provides a sophisticated analysis of cross border challenges and problems in the southern African region It advances explanations that transcend the state centric narrative that has nationalised cross border security It provides insights from non state actors such as informal cross border traders ICBTs informal cross border transporters undocumented migrants and cross border communities It argues that security needs to be understood beyond a state centric paradigm by focusing on the political economic environmental and societal threats at macro meso and micro levels The book suggests that at the core of cross border security challenges in the Southern African region is a post colonial governmentality This drives the nationalisation of cross border security as though it is the only security leading to nation states in turn depoliticising and invisibilising the security and livelihoods of ordinary people even when nation states claim to be protecting the same The book will be a useful resource for students scholars and researchers of African Studies Border Studies Human Geography Migration Studies Development Studies International Studies International Relations Political Science and Security Studies
