Academic Libraries: Reflecting on Crisis, the Fourth Industrial Revolution and the Way Forward Anette Janse van Vuren, 2022-06-27 As we begin to fundamentally redefine our world informed through the Fourth Industrial Revolution 4IR, entire industries are gearing up for this disruptive event. Library practices have been no exception. With the advent of advanced digital technology, knowledge is becoming more readily accessible. This book focuses on how libraries need to respond, adapt and transform to become meaningful spaces in our rapidly changing 21st century within the 4IR and coupled with the restrictions of the pandemic. Tracing the evolution of technology over the centuries, the changing role of the library as a response to disruptions is discussed. Decolonising Higher Education in the Era of Globalisation and Internationalisation Kehdinga George Fomunyam, 2019-07-01 Conceived within a context of transdisciplinarity and pluriversalism and in rigorous response to the Eurocentric globalising and nationalising structures of power that undergird and inhabit contemporary praxis in higher education, especially in African higher education, this collection of essays brings to the on-going discourse on decolonisation fresh, rich, probing and multilayered perspectives that should accelerate the process of decolonisation not only in higher education in Africa but also in the global imaginary. A remarkable, courageous and potentially revolutionary achievement, this book deserves a special place on curricula throughout the world of higher education.
