Worshippers of the Gods Mattias P. Gassman, 2020 Worshippers of the Gods shows how fourth century Latin writers rethought traditional religion during Christianity s rise Through five interlocking studies of inscriptions laws senatorial papers and Christian polemics it traces shifting conceptions of paganism from the Tetrarchic persecution through Constantine s reign to the disestablishment of the Roman cults in the 380s Conversations and Controversies in the Scientific Study of Religion , 2016-02-15 Luther H Martin and Donald Wiebe together have spent the better part of a century exploring possibilities for a scientific study of religion The following essays are a record of their conversations together and

of their conversations and controversies with a number of leading scholars in religious studies that address that possibility As with any scientific endeavor knowledge advances when research assumptions and experimental designs are collegially discussed and critically assessed It is hoped that these essays might provide the occasion for scholars in the field to discuss the theoretical and methodological issues they have raised to debate and expand upon them or in the spirit of forthright scientific inquiry to refute the arguments they have made **Bollettino dei Musei Comunali N.S.XXVI/2012**
