analytic philosophers have usually dealt with literary problems either within the general framework of aesthetics or else in a way that is accessible only to a philosophical audience The present book is unique in that it introduces the philosophy of literature from an analytic perspective accessible to both students of literature and students of philosophy Specifically the book addresses the definition of literature the distinction between oral and written literature and the identity of literary works the nature of fiction and our emotional involvement with fictional characters the concept of imagination and its role in the apprehension of literary works theories of metaphor and postmodernist theory on the significance of the authors intentions to the interpretation of their work an examination of the relevance of truth and morality to literary appreciation Lucid and well organised and free from jargon philosophy of Literature An Introduction offers fresh approaches to traditional problems and raises new issues in the philosophy of literature *In Theaters Everywhere* Brian Hannan, 2019-01-09

Conflicts among Hollywood studios and exhibitors have been going on for years At their heart are questions about how films should be released where when and at what speed Both sides of this disagreement are losers with exhibitors using the law via various Consent Decrees and studios retaliating by tightly controlling output In the Silent Era movies were not released nearly as widely as they are now This book tells the story of how the few became the many It explores the contraction of the release cycle the maximization of the marketing dollar and the democratization of consumer access It also offers a comprehensive list of wide releases and rebuts much of what previous scholars have found **Anna Karénina** graf Leo Tolstoy, 1929
