One American's Story

Colin Powell did not start out in life with any special privileges. He was born in Harlem and raised in the Bronx, where he enjoyed street games and tolerated school. Then, while attending the City College of New York, he joined the Reserve Officer Training Corps (ROTC). He got straight A's in ROTC, and so he decided to make the army his career.

Powell served first in Vietnam and then in Korea and West Germany. He rose in rank to become a general; then President Reagan made him national security adviser. In this post, Powell noted that the Soviet Union was a factor in all the administration's foreign policy decisions.

A PERSONAL VOICE COLIN POWELL

"Our choosing sides in conflicts around the world was almost always decided on the basis of East-West competition. The new Soviet leader, Mikhail Gorbachev, however, was turning the old Cold War formulas on their head. . . . Ronald Reagan . . . had the vision and flexibility, lacking in many knee-jerk Cold Warriors [participants in the Cold War between the U.S. and the USSR], to recognize that Gorbachev was a new man in a new age offering new opportunities for peace."

—*My American Journey*

Though U.S. foreign policy in the early 1980s was marked by intense hostility toward the Soviet Union, drastic economic problems in the Soviet Union destroyed its ability to continue the Cold War standoff.

Cyr, 1997-06-18 The end of the Cold War provides challenges and opportunities for American foreign policy leadership that arguably have been equalled in modern times only by the period in which the Cold War began With the collapse of the Soviet Union and communist regimes in Eastern Europe the partners of the Atlantic alliance have achieved a profound diplomatic and political victory of historic importance The international system which has resulted however arguably has more uncertainty and unpredictability than the familiar bipolar competition between the two superpowers and their allies The book describes these changes and provides suggestions for policy analysis and definition in the future There is extensive discussion of developments during the Reagan Bush and Clinton administrations with particular reference to the two regions of Europe and Asia There is a three fold division between intellectual structural and sociological dimensions of foreign policy focusing respectively on the ideas and themes alliance and other regional and international organizations including the private corporation and human dimensions which both define and influence evolving international relations A principal argument is that the extraordinary expansion of communication travel and economic activity and opportunity among industrialized nations has greatly enhanced American political and social influence There is considerable comparative discussion of Europe and Asia concluding that Britain and South Korea provide instructive examples for the understanding and conduct of foreign policy **America Pathways to the Present**, 1995 **Mao's China and the Cold War** Jian
