Answers For Geometry August 2013

Alan J. Singer

Answers For Geometry August 2013:

Automorphisms in Birational and Affine Geometry Ivan Cheltsov, Ciro Ciliberto, Hubert Flenner, James McKernan, Yuri G. Prokhorov, Mikhail Zaidenberg, 2014-06-11 The main focus of this volume is on the problem of describing the automorphism groups of affine and projective varieties a classical subject in algebraic geometry where in both cases the automorphism group is often infinite dimensional The collection covers a wide range of topics and is intended for researchers in the fields of classical algebraic geometry and birational geometry Cremona groups as well as affine geometry with an emphasis on algebraic group actions and automorphism groups It presents original research and surveys and provides a valuable overview of the current state of the art in these topics Bringing together specialists from projective birational algebraic geometry and affine and complex algebraic geometry including Mori theory and algebraic group actions this book is the result of ensuing talks and discussions from the conference Groups of Automorphisms in Birational and Affine Geometry held in October 2012 at the CIRM Levico Terme Italy The talks at the conference highlighted the close connections between the above mentioned areas and promoted the exchange of knowledge and methods from adjacent fields

Geometric Structures of Information Frank Nielsen, 2018-11-19 This book focuses on information geometry manifolds of structured data information and their advanced applications featuring new and fruitful interactions between several branches of science information science mathematics and physics It addresses interrelations between different mathematical domains like shape spaces probability optimization algorithms on manifolds relational and discrete metric spaces computational and Hessian information geometry algebraic infinite dimensional Banach information manifolds divergence geometry tensor valued morphology optimal transport theory manifold topology learning and applications like geometries of audio processing inverse problems and signal processing The book collects the most important contributions to the conference GSI 2017 Geometric Science of Information
