What is this life if, full of care,
We have no time to stand and stare.

Time is endless in thy hands, my lord.
There is none to count thy minutes.

To speak of that which gives thee all thy might?

Arrows Of Time Poems:

Arrow of Time Chew Lawrence, 2014-06-27 To read his poems is to be invited into the swirling vortex of quantum physics philosophy evolutionary biology and personal biography Engaging with them is not only a stimulating intellectual exercise it may lead the reader to ponder the nature of the universe and our place in it In these poems you meet the defiance of modern man stripped of the easy consolations of God conversing with silent space This conversation vacillates from harshness in its relentless logic to tenderness in its lyricism They do not diminish the human condition nor our unique penchant to seek meaning but rather counsels a sense of proportion in our reactions to life's vicissitudes when placed in a cosmic scale Jeffery Lee Singapore Poet Now on the poems you sent me they are unique they carry me along with your carefully chosen words I cannot describe them because of the sweet meaning you have put hidden all throughout your poems amazing Christian Jay Senior Publishing Consultant

Arrows of Time Linda Drajem, 2014-12-10 This is a collection of poetry by Linda Drajem She is a brave poet who writes much of her life in this book But she also writes the lives of the silent and the invisible She creates beauty within these poems from the silent lives of the women in her family from the invisible women of other cultures She illuminates what may seem ordinary until it glows She holds up the world frames her mother's dying her own aging her grandchildren and pieces of this harsh world and makes us see them through the lens of the fierce love that is her poetry and her life Barbara Q Faust Co author InnerSessions Poems From The Crooked Circle Nancie Atwell's Workshop 1 and 2

Arrow of Time and Reality Anne Magnon, 1997 What is Reality What is the role of human consciousness in the shaping of such a concept These questions are as old as mankind and gave rise to the MIND MATTER dualism which preoccupied so many physicists Schrödinger Wigner etc This book considers the problem within the realm of contemporary physics and shows that it could be related to that of ultimate entities The author develops the viewpoint according to which human thinking activities are fruit of the Cosmos and of its combinatorial activity Ultimate entities the bricks out of which our universe is made could be hidden as a primordial alphabet in the foundations of the pyramid of increasing complexity which seems to unfold as a language and to culminate in the emergence of organized and thinking structures This is analyzed in the context of cosmological screening and horizons an expression of our lack of access to totality where macroscopic and microscopic can mingle where a unification of interactions and a matching of available arrows of time can take place This context is also that of quantum evaporation of particle antiparticle like entities which triggers entropy increase and of the overlap between General Relativity and Quantum Mechanics The problem of an global origin of the universe and evanescent Now is considered A creative principle reminiscent of the biological mitosis is also presented which is the generator of the event through breaking of temporal symmetry In this perspective time flow is an emergent concept Creation of the World is declined priority on the concept of coming into existence Participant to the origin of the World all possibly virtual processes are able to culminate into the phenomenon of consciousness and Self Awareness

Hart Crane's Poetry John T. Irwin, 2011-11-17 In one of his letters Hart Crane wrote Appollinaire lived in Paris I live in Cleveland Ohio comparing misspelling and all the great French poet s cosmopolitan roots to his own more modest ones in the midwestern United States Rebelling against the notion that his work should relate to some European school of thought Crane defiantly asserted his freedom to be himself a true American writer John T Irwin long a passionate and brilliant critic of Crane gives readers the first major interpretation of the poet s work in decades Irwin aims to show that Hart Crane s epic The Bridge is the best twentieth century long poem in English Irwin convincingly argues that compared to other long poems of the century The Bridge is the richest and most wide ranging in its mythic and historical resonances the most inventive in its combination of literary and visual structures the most subtle and compelling in its psychological underpinnings Irwin brings a wealth of new and varied scholarship to bear on his critical reading of the work from art history to biography to classical literature to philosophy revealing The Bridge to be the near perfect synthesis of American myth and history that Crane intended Irwin contends that the most successful entryway to Crane s notoriously difficult shorter poems is through a close reading of The Bridge Having admirably accomplished this Irwin analyzes Crane s poems in White Buildings and his last poem The Broken Tower through the larger context of his epic showing how Crane in the best of these worked out the structures and images that were fully developed in The Bridge Thoughtful deliberate and extraordinarily learned this is the most complete and careful reading of Crane s poetry available Hart Crane may have lived in Cleveland Ohio but as Irwin masterfully shows his poems stand among the greatest written in the English language *Breaking Time's Arrow* Matthew McDonald, 2014-06-16 A critical look at the work of and philosophical influences upon the American Modernist composer Charles Ives 1874 1954 moved traditional compositional practice in new directions by incorporating modern and innovative techniques with nostalgic borrowings of 19th century American popular music and Protestant hymns Matthew McDonald argues that the influence of Emerson and Thoreau on Ives s compositional style freed the composer from ordinary ideas of time and chronology allowing him to recuperate the past as he reached for the musical unknown McDonald links this concept of the multi temporal in Ives s works to Transcendentalist understandings of eternity His approach to Ives opens new avenues for inquiry into the composer s eclectic and complex style A trenchant and intellectually expansive reading of Ives s relationship to time by connecting several compositions and indeed the composer s larger conceptualization of the past present and future to the Emersonian concept of the everlasting Now This book is a wonderfully written important contribution to scholarship on the music of Charles Ives Gayle Sherwood Magee author of Charles Ives Reconsidered McDonald investigates both the temporal and spatial effects of multidirectional motion as well as its ramifications for understanding some of the larger philosophical issues that are raised in Ives s music Music Letters May 2015 McDonald brings together analytic and personal factors to sharpen the image of the composer in convincing ways This book deserves a close reading The bibliography provides a select list of scores and recordings as well as articles books catalogues and

unpublished commentaries This book is recommended for college and university libraries and for readers with a music theory background Music Reference Services Quarterly **The Last Arrow and Other Poems** Henry Dean Atwood,1899 The Poetry of Knowledge and the 'Two Cultures' John G. Fitch,2018-05-16 This book argues that poetry is compatible with systematic knowledge including science and indeed inherent in it it also discusses particular poems that engage with such knowledge including those of Lucretius Vergil and Vita Sackville West The book argues that there are substantial similarities between knowledge making and poetry making for example in their being shaped by language including metaphor and in their seeking unity in the world under the impulse of eros and pleasure The book also discusses some of the obstacles to a poetry of knowledge including scientific objectivism the Kantian tradition in philosophy and the separation of the two cultures in our academic and intellectual institutions The book is designed to be accessible to all those interested in the issue of the two cultures or in the role of poetry and of science in contemporary culture Arrow of Chaos Ira Livingston,1997-01-01 Traces the relationship between the texts and obsessions of the Romantic and postmodern periods Arrow of Chaos navigates through postmodern coordinates such as chaos theory and fractals as well as literary and cultural theory mapping the ongoing mutations of Romanticism in postmodern culture and the inklings of the postmodern already at work in Romanticism The result is a chaology of knowledge a study of the logic of chaos Ira Livingston s reading of Romantic and postmodern texts from poetic political and scientific works to films and dreams reveal surprising code shiftings within and among them The resilience of Romanticism Livingston argues lies not in enforcing a single master narrative but in orchestrating these fluxes Using theory and critical readings alongside a series of illustrative vignettes Livingston portrays cultural history as a dynamic entity conserved by the continually renewed demands of order and disorder By modeling ways to think through chaos and through the mutual deformations of Romanticism and postmodernity Arrow of Chaos contributes to alternative alignments of knowledge across time and technique The Chinese Classics: The She king, or the Book of poetry: pt. 1. The first part of the She-king, or the Lessons from the states; and the Prolegomena. pt. II. The second, third and fourth parts of the She-king, or the Minor odes of the kingdom, the Greater odes of the kingdom, the Sacrificial odes and praise-songs; and the indexes James Legge,1871 The Tale of the Mirror (& The Wishing Tree Poetry) Erjan J. Slavin,2010-02-11 The Tale of the Mirror is an allegory of the human predicament of having to be in the world while also having to remain true to our own ideals and dreams Told in a voice for all ages this story delights us with its sense of comedy and touches on some themes that we have all been familiar with How is it that we can be ourselves and still enjoy our freedom in the civil world as we grow in it This work approaches this sensitive moment in a young person s development with both amusement and wit The rhythm of imagination is also part of the rhythm of the world and the world is also part of the rhythm of the imagination As simple as it is deep in idea this poetic novel will give you a glimpse of yourself that you will want to come back to again Included also in this hardcover volume are the celebrated Wishing Tree poems and a scholarly
