Architectures of Existence Chris Younès, 2023-08-09 Architectures of Existence proposes that philosophical thinking ecosophical thinking can inform the way we engage with our world and its inhabitants as architects designers and planners but also as individuals as people and as a society In Art et existence Maldiney states For us to inhabit is to exist This book aims to unfold extend articulate and thicken this postulate by interweaving architecture city landscape literature and

philosophy It takes up the synergistic lines of long term research carried out from an ecosophical perspective Such an attitude explores an art of existing in multiplicity singularity and openness manifesting the critical dimension through a reinterpretation of the knotting of the trajectories of time humanity and its becoming Insisting on what is between things and beings as well as on what is happening regenerating recycling reviving saving diversifying sparing recreating meditating and so caring These are all eco rhythms of a different type between human and non human to consider ourselves in the world In an era of uncertainty and climate threats this book develops the margins of possibility offered by the subject of architecture This book will be of interest to researchers and students of architecture urban planning and philosophy **Disneyfying Ile**

De France? Anne-Marie d'Hauteserre, 2020-11-17 The book captures the history as well as the meaning and the value of the on going partnership between the French state and the Walt Disney Company remembering that it involved from the start more than a tourism project It examines how the combined aspirations of the French state and the American Company transformed Val d Europe as the sole potential location in Europe for the Company's theme parks while allowing the state to retain its egalitarian ideals Most critics believed the French state had caved into every demand of the Company No one ever mentioned profits of the state that it would then invest to support other projects The first part of the book investigates the encounter between the partners and the reasons why a welfarist state encouraged penetration by a capitalist enterprise alongside the Company's reasoning The second section reveals the continued cooperation between the two entities in the management of the urbanization of Val d Europe from the opening of the first Park and the start of a new major tourism development in spite of criticisms and fluctuating attendance in the parks The third part highlights more recent actions of the partners to create a formidable urban tourism pole that will attract ever more visitors while still critically examining their effectiveness and sustainability **Les nouvelles conditions du projet urbain**, 2001 Consid re les nouvelles pr rogatives

de la construction urbaine en placant la critique et l intellectuel au sein de la production citadine **Les lieux du spectacle**

dans l'Europe du XVIIe siècle Charles Mazouer, 2006 L'architecte et le philosophe Antonia Soulez, 1993 *MoMoWo ·*

100 projects in 100 years. European Women in Architecture and Design · 1918-2018 Ana Fernandez Garcia, Helena Seražin, Emilia Maria Garda, Caterina Franchini, 2016-09-01 This publication is aimed to support two MoMoWo traveling exhibitions which will be presented in six European countries in two years 2016 2017 indoor exhibition catalogue 100 Works in 100 Years European Women in Architecture and Design 1918 2018 and outdoor exhibition Women's Tale A Reportage on Women Designers Exhibition catalogue 100 Works in 100 Years European Women in Architecture and Design 1918 2018 brings together a selection of some of the most significant and representative examples of European architecture and design created by 100 women from the end of the First World War up until today The number of works is symbolic as one hundred could also mean countless as in the Latin word centium While the number of authors each work has a different author derives from MoMoWo's choice to represent many different creators consequently popularising lesser known figures too It

includes biographies of women architects civil engineers furniture and industrial designers urban planners interior and landscape designers It represents the main trends and major schools of architecture and design all over Europe The biographical data covers education and training professional histories networks women have operated in including informal societies memberships in trade bodies and associations their profile as international national local and regional designers as well as looking at how women have promoted their work i e in exhibitions publications competition entries etc The catalogue entries are followed by thirteen thematic essays on women architects and designers and by the outdoor exhibition catalogue Women s Tale A Reportage on Women Designers where photographs by ten finalists of the MoMoWo Photo competition are presented By seeking to identify women who worked in Europe as well as European women who worked outside Europe over last 100 years the main aim of this catalogue is to increase the awareness of historians and the general public about their enormous contribution to architecture and design and indirectly providing accessibility to their works _ _ _ _ _
