Art Since 194:

Korean Art since 1945: Challenges and Changes Youngna KIM, 2024-09-16 Over the past decades Korea has gradually risen to become one of the global representatives of Asian culture Korean artists have been increasingly active at an international level with many being invited for residencies and exhibitions all over the world Nonetheless for various reasons the general understanding of Korean contemporary art remains insufficient Although a few overviews of Korean contemporary art do exist they typically focus on the history of art groups and movements In addition several anthologies have been published with articles on a range of topics offering multiple perspectives However there have been few attempts to provide a unified synopsis of Korean contemporary art Presenting a comprehensive engaging survey that covers the full spectrum of Korean contemporary art Korean Art since 1945 Challenges and Changes seeks to fill this lacuna Drawing on primary sources it discusses the main issues including the ideological stakes that affected the art world modernist art vs political art and the fluidity of concepts such as tradition and national identity Moreover the book also has a chapter on the art of North Korea Korean Art since 1945 Challenges and Changes is an invaluable tool for those intent on grasping the entire scope of modern art in Asia

Art After the Bomb Darrell D. Davisson, 2008 This book is requisite reading material for any person claiming to be an educated and informed member of the global community Our understanding in the West of the Eastern cultures specially the different cultures involving the Muslims is alarmingly low The book strives to offer a view from the ground a keyhole perspective that offers the readers a close and personal peek into some of the ethical underpinnings and the philosophical guiding parameters that inform the Muslim and the Eastern mind There are over 1.3 billion Muslims in the world It would be a serious intellectual fallacy to assume that they are all homogenous or to be more preposterous assume they are all terrorists It is extremely tragic that it took the Iranian hostage crisis to teach us about Shia Islam and 9/11 to teach us about Wahabi Islam Properly acquired knowledge not just what we learn from the media will allow us to be anticipatory and rational rather than being reactive and emotional For the Muslim reader specially the children and the youth the book strives to offer a deeper understanding of Islam beyond the boundaries of ritual Islam into the wide open space of spiritual and intellectual Islam To

inspire them to appreciate and live up to the wonderful legacy of Islam and not to be mired down into some deviant interpretations of people with questionable motives The book is designed to encourage the process of tearing down walls and building bridges We share common dreams aspirations and challenges We share a common globe and a common destiny The author believes that there are no clashes of civilizations just clashes of ignorance and misunderstanding *Literature and the Arts since the 1960s* Jorge Almeida e Pinho, Márcia Lemos, 2020-08-13 This collection of essays focuses on addressing the imaginative wake of the rebellious late 1960s with a particular but not exclusive focus on word and image relations The volume showcases and discusses the impact of such processes on literature and the arts of that mythologized historical period It explores the impact of its defining causes hopes and regrets on the creative imagination The awakening moment for that extraordinary momentous period in the global socio political memory was May 1968 which came to be seen as the culmination and epitome of a series of processes involving protest and the affirmation of previously silent or subaltern causes Such processes and causes were predicated on challenges to established powers and mindsets and hence on demands for change which have had rich consequences in literature and the arts Ancient Art from Cyprus Metropolitan Museum of Art (New York, N.Y.), Vassos Karageorghis, Joan R. Mertens, Marice E. Rose, 2000 The Cesnola Collection in The Metropolitan Museum of Art is the richest and most varied representation outside Cyprus of Cypriot antiquities These works were purchased by the newly established Museum in the mid 1870s from General Luigi Palma di Cesnola a Civil War cavalry officer who had amassed the objects while serving as the American consul on Cyprus This catalogue is published on the occasion of the opening of the Museum's four permanent galleries for ancient art from Cyprus It is also the first scholarly publication since 1914 devoted to the Cesnola Collection which totals approximately six thousand objects The volume features some five hundred pieces from the collection illustrated in new color photography Dating from about 2500 B C to about A D 300 these works rank among the finest examples of Cypriot art from the prehistoric Geometric Archaic Classical Hellenistic and Roman periods Among the objects are monumental sculpture weapons tools and domestic utensils vases lamps and ritual paraphernalia dedicatory figurines engraved sealstones and jewelry and luxury objects **BOOK JACKET Title Summary** field provided by Blackwell North America Inc All Rights Reserved **Improvisation Hypermedia and the Arts since 1945** Roger Dean, Hazel Smith, 2013-11-05 First Published in 1997 The authors purpose in this book is to dissect developments in improvisation in the arts since 1945 with a particular emphasis on process and technique The approach is analytical and theoretical but is also relevant to practitioners and their audience Their key argument is that improvisation has been of great importance and value in the contemporary arts particularly because of its potential to develop new forms often by breaking definitions On the Edge of America Paul J. Karlstrom, 1996-01-01 The past quarter century has witnessed the emergence of a scholarly appreciation of American art in California Yet assessments of the early modern pre 1950 have been haphazard Now in one bold volume these scholars have remedied that deficiency Thanks to the rich essays of

this wonderful book the art history of California and the nation is graced with further light Dr Kevin Starr State Librarian of California The authors of these essays illuminate a diverse and compelling history one in which what happened at the geographic edges sheds new light on the European points of origin A lively and valuable contribution not just to regional history but to the making and transmission of modernism Whitney Chadwick Professor of Art History San Francisco State University A welcome and overdue evaluation of the distinctive history of modernism in California these essays sensitively explore a cultural terrain at once familiar and strange surveying memorable achievements from painting to photography to architecture and film The authors provocatively suggest the centrality of edges wherever they are found to the national tale and demonstrate it through significant developments on our western margin A must for any serious student of American art and culture Charles C Eldredge The University of Kansas An engrossing examination of modernist practices in California before the Abstract Expressionists and beatniks came to town It includes art scenes peopled by Mexican muralists European artists in exile third generation Californians idealist photographers and immigrant artisans Wanda Corn Professor of Art History Stanford University These fascinating essays do much more than fill a major gap in our understanding of American regionalism Their scope is superb because of the inclusive range of their definition of art the varied ethnicities of the artists discussed and the distinctive impact of environment light and culture on California art A dazzling treasure as pleasing to the eye as it is to the mind Michael Kammen Professor of History Cornell University

Art of the Modern

Age Jean-Marie Schaeffer, 2023-09-26 This is a sweeping and provocative work of aesthetic theory a trenchant critique of the philosophy of art as it developed from the eighteenth century to the early twentieth century combined with a carefully reasoned plea for a new and more flexible approach to art Jean Marie Schaeffer one of France s leading aestheticians explores the writings of Kant Schlegel Novalis Hegel Schopenhauer Nietzsche and Heidegger to show that these diverse

thinkers shared a common approach to art which he calls the speculative theory According to this theory art offers a special kind of intuitive quasi mystical knowledge radically different from the rational knowledge acquired by science This view encouraged theorists to consider artistic geniuses the high priests of humanity creators of works that reveal the invisible essence of the world Philosophers came to regard inexpressibility as the aim of art refused to consider second tier creations genuine art and helped to create conditions in which the genius was expected to shock puzzle and mystify the public Schaeffer shows that this speculative theory helped give birth to romanticism modernism and the avant garde and paved the way for an unfortunate divorce between art and enjoyment between high art and popular art and between artists and their public Rejecting the speculative approach Schaeffer concludes by defending a more tolerant theory of art that gives pleasure its due includes popular art tolerates less successful works and accounts for personal tastes A remarkable work Schaeffer s writing is governed by the ideals of clarity and consequence the ideas of logic truth and evidence Schaeffer is so precise and unrelenting a philosophical critic that one wonders how some of the philosophies he anatomizes here can possibly survive the operation From the foreword by Arthur C Danto *Art Information and the Internet* Lois Swan Jones,2013-12-16 In the first book of its kind art information expert Lois Swan Jones discusses how to locate visual and textual information on the Internet and how to evaluate and supplement that information with material from other formats print sources CD ROMS documentary videos and microfiche sets to produce excellent research results The book is divided into three sections Basic Information Formats Types of Websites and How to Find Them and How to Use Web Information Jones discusses the strengths and limitations of Websites scholarly and basic information resources are noted and search strategies for finding pertinent Websites are included Art Information and the Internet also discusses research methodology for studying art historical styles artists working in various media individual works of art and non Western cultures as well as art education writing about art problems of copyright and issues concerning the buying and selling of art This title will be periodically updated
