

History of Klint Art Activity

Wima of Klint, born in 1862, was an imaginative Swedish artist. He made abstract paintings that were very unique for the time. In this activity, we will create artwork inspired by the shapes and colours seen in his artwork.

You will need:

- a coloured sheet of card (A4)
- different coloured card (A2) if
- oil paints
- a glue stick
- scissors
- a pencil
- a sketchbook

Take a look at the shapes in Wima of Klint's artwork.

Start by sketching the shapes you like the most in a sketchbook.

On an A4 piece of coloured card, draw one of the shapes. Make it as big as you can to fill the whole page.

Then, carefully cut out the shape using scissors.

Wima of Klint Art Activity

Draw two more shapes on different coloured A4 sheets of card and cut them out. Arrange the shapes on a sheet of A4 paper until you find the layout you like.

Top Tip - Try layering the shapes, letting some rest on top of others.

or card, cut out some smaller shapes and use them to add more shapes to it.

Use to outline and fill in some of the shapes with the colours in Wima of Klint's work to make your artwork.

Use and shapes inspired by Wima of Klint to make some of the lines on top of each.

Wima of Klint Art Activity

is at your work and see if there are details you can add to help make it look like Wima of Klint's artwork.

Don't be afraid to draw shapes that fill up the page.

Thinking Skills for SEN Learners: Practical strategies for developing thinking and learning - eBook, Adventure Stories for Reading, Learning and Literacy Mal Leicester, Roger Twelvetreets, 2010-07-09 This book takes a unique approach to cross curricular teaching in the primary classroom Providing eight original adventure stories the authors build up a suite of resources and activities for teachers to use in the classroom

Primary Curriculum - Teaching the Foundation Subjects Rosemary Boys, Elaine Spink, 2008-06-15 This textbook focuses on how to teach the foundation curriculum subjects effectively to the 5 11 age group by focusing upon the underlying principles of teaching each area Covering all manner of good practice including planning teaching assessment and evaluation along with principles and practice cross curricular links and out of school teaching and learning A one stop resource for trainees and Newly Qualified Teachers for developing their teaching skills within the core areas of the National Curriculum This is also the companion book to Primary Curriculum Teaching the Core Subjects

Your Primary School-based Experience Catriona Robinson, Branwen Bingle, Colin Howard, 2025-02-28 This book is an essential companion for all primary trainee teachers whatever their training route It focuses on the school based experience and provides both practical strategies and opportunities for reflection so trainees are challenged to critically evaluate their learning in order to improve attainment and ultimately succeed while in their school settings The book reflects current educational policy and embraces key national priority areas including behaviour inclusion and the teaching of phonics and early mathematics Other chapters look at professional partnerships planning and assessment employability and crucially how to move from good to outstanding teaching Case studies enliven the text and present a range of perspectives for consideration while critical questions engage the reader and promote a deeper understanding of the text This second edition of Primary School Placements has been fully revised throughout and in particular provides an increased focus on evidence based practice and is referenced to the latest national curriculum

Science Teaching in Schools Great Britain: Parliament: House of Lords: Science and Technology Committee, 2006-11-05 The Committee s report examines science and mathematics teaching in secondary schools in England focusing on the following issues the take up of science and mathematics at GCSE and A level the provision of careers advice to students problems in the recruitment and retention of teachers the quality of teaching methods and the role of continuing professional development The Committee finds that effective science teaching in schools is essential both in order to ensure a satisfactory general level of scientific literacy in society and to enable the next generation of scientists and engineers to progress into higher education and beyond It argues that the current examination system forces students to study an excessively narrow range of subjects at too early an age and it recommends that the Government should reconsider the Tomlinson proposals for a broader diploma based system for 14 19 year old students based on the International Baccalaureate This would ensure that students receive a more rounded education and are not made to over specialise before they are able to see the merits of studying science and mathematics

Concerns are also raised about the shortage of science teachers particularly specialist physics and chemistry teachers the quality of careers advice in schools and the importance of practical science in schools **Music Education Yearbook** ,1998
