Foundations of Korean Martial Arts: Masters, Manuals and Combative Techniques Michael DeMarco, M.A., et al., 2017-01-29 Most of what are referred to as Korean martial art styles are actually derived from Japanese Okinawan karate systems or find their roots in Chinese boxing The Korean peninsula has existed as a fragile territory between China and Japan and thus shared many cultural elements from their neighbors To what degree has the Japanese and Chinese arts influenced those practiced in Korea over the centuries Can we distinguish any original Korean martial art style Chapters in this anthology are derived from the Journal of Asian Martial Arts specifically in response to such questions as asked above The authors provide great detail on the military martial manuals that recorded both battlefield arts and personal combative arts and use these sources to give a picture of the martial traditions practiced in Korea for hundreds of years In chapter one Stanley Henning provides an excellent overview of martial arts in Korea since the earliest dynasties These include bare hand arts as well as those with weaponry His overview illuminates the time and place of highly influential military manuals as discussed in the chapter by Manuel Adrogu John Della Pia's two chapters focus on a particular manual the Muay Dobo Tongji 1790 providing details of open hand and weapons training in particular with the unique Korean native sword Two chapters provide the theory and practice of qigong methods for health and martial effectiveness Dr Patrick

Massey et al offer results on the use of breathing methods affecting lung capacity Sean Bradley s chapter goes deeply into the medical theories that parallel the practice of Sinmoo Hapkido s qigong methods The final two chapters focus on practical fighting applications from Hapkido Marc Tedeschi s chapter provides sound advice for self defense against multiple opponents In addition to detailing principles that give any defender a helpful advantage Tedeschi shows nineteen examples of techniques against two three and four opponents that include pressure point striking throws arm bars locks and a variety of kicks In the closing chapter Sean Bradley discusses a few of his favorite techniques where he learned them and why they are memorable Rich in historical details and practical advice this anthology will prove to be a prized reference work to all interested in the Korean martial traditions

The Masters Manual -- Chuan Fa Kenpo Close Combat Edward Orem,2014-04-08 For instructors of non sport martial training this Master s Manual details 340 duan chuan fa or Short Fist extremely aggressive and terminal close range fighting techniques maneuvers and strategies against specific aggressions As this is oriented toward seasoned instructors no photos are included nor are they necessary with the detailed written directions This is not self defense material that is not its genesis and it is patently inappropriate for those who do not train seriously The techniques present combinations of throws locks breaks holds chops kicks punches and other strikes arranged in 11 levels of belt ranks up to 5th Black as presently used in the Chuan Fa Kenpo system Each technique will easily suggest 10 optional and equally effective maneuvers i e these are seeds for dynamic adaptive responses There has been a deliberate attempt in the Manual s layout to allow room for you to leave tracks as you modify these seminal maneuvers Taekwondo

Udo Moenig,2015-04-10 This book provides a comprehensive overview of the historical political and technical evolution of taekwondo Many of the supposedly traditional and ancient Korean cultural elements attached to taekwondo are in fact remnants of East Asia s modernization drive and largely inherited from the Japanese martial arts The current historical portrayal has created an obstacle to a clear understanding of the history of taekwondo and presents problems and contradictions in philosophy and training methodology Using rich empirical data including interviews with leading figures in the field this book brings together martial arts philosophy with an analysis of the technical aspects and the development of taekwondo and provides a detailed comparison of karate and taekwondo techniques It debunks nationalistic mythology surrounding taekwondo to provide a reinterpretation of taekwondo s evolution Jingwu Brian Kennedy,Elizabeth

Guo,2010-06-15 In 1909 because of their ties with the failed Boxer Rebellion and the rise of modern weaponry Chinese martial arts were in serious danger of extinction The Jingwu Association was formed to keep these ancient arts alive Jingwu The School That Transformed Kung Fu tells the story of this seminal institution Extensively researched the book shows Jingwu as the first public martial arts training school and the first to teach kung fu as recreation not simply as a form of combat It was also the first to incorporate women s programs with men s and the first to use popular media to promote Chinese martial arts as both sport and entertainment Through these efforts the Jingwu Association helped guarantee Chinese

martial arts would survive the transition from traditional to modern China This lively history covers the school's tumultuous beginnings the four historical phases of Chinese martial arts that inform it profiles of important practitioners like Huo Yuanjia those elements such as the integration of women that have made Jingwu distinctive and enduring individual branches and practices within the larger system and more Rare historical documents and vintage photographs take the reader directly into one of the most fascinating and important stories in martial arts

Chen T'ai Chi: Traditional Instructions from the Chen Village, Volume 2 Michael DeMarco, 2015-08-21 When we think of martial arts in old China we get visions of violent convulsions of dynastic change devastating rebellions civil wars and banditry Throughout the centuries there was a need for masters who possessed highly effective martial skills for positions in the military protection services and law enforcement Out of this historical reality emerged a national treasure we call taijiquan Chen style taijiquan formulated during the days of military strategist Qi Jiguang 1528-1587 and its founder is considered to be militia battalion commander Chen Wangting 1600-1680 The art evolved Its mystique remains fundamentally a true fighting art including bare handed forms and applications plus an arsenal of weapons that includes the spear straight sword broadsword and halberd Then there are the associated training methods used to master this complete system such as qigong push hands and standing post All of these practices are infused with knowledge associated with the physical and mental aspects of the human condition Chen style encompasses a complete martial system It has a deserved reputation for its combative efficiency but also as a health nurturing modality The vastness of the Chen style curriculum is way beyond the scope of most people to fully learn so practitioners focus on what they can handle Usually a solo routine is sufficient Since all taiji styles stem from the original Chen family system the Chens certainly share in the credit for taiji's popularity in general especially as an exercise purely for health benefits Regardless of taiji style be it Chen Yang Wu Sun Hao or other any serious taiji practitioner or scholar should have some understanding of the Chen family roots to get a vision of the whole tree This two volume anthology brings much of the rich heritage conveniently together for your reading In this second volume there is a special emphasis on nurturing the internal aspects for health as well as for combative skills You will find clear explanations

outlining each step in the learning process toward mastering Chen style taiji Chapters included here clarify what proper training entails and why much time and effort gongfu are necessary to gain results In addition to the detailed history and penetrating philosophy you ll find here perhaps of greater importance are the clear explanations outlining each step in the learning process toward mastering Chen style taiji Only a very high level teacher can understand what methods of instruction work best Students don t know that s why they should follow a teacher s instructions as closely as possible Chapters included here clarify what proper training entails and why much time and effort gongfu are necessary to gain results As echoed among practitioners in taiji s birthplace If you drink water from Chen Village your feet know how to kick This two volume edition brings you to the village for traditional instruction
