As Guide Metaphysics Morals Philosophical Reflection:

Metaphysics as a Guide to Morals Iris Murdoch, 2012-09-30 The decline of religion and ever increasing influence of science pose acute ethical issues for us all Can we reject the literal truth of the Gospels yet still retain a Christian morality Can we defend any moral values against the constant encroachments of technology Indeed are we in danger of losing most of the qualities which make us truly human Here drawing on a novelists insight into art literature and psychology Iris Murdoch conducts an ongoing debate with major writers thinkers and theologians from Augustine to Wittgenstein Shakespeare to Sartre Plato to Derrida to provide fresh and compelling answers to these crucial questions **Reflections in Practical**

Philosophy and the Philosophy of Religion Peter Loptson, 2020-01-21 This book is the result of an extended series of musings analysis and theorizing over a period of several years Its central focus is normative philosophical topics chiefly related to ethics metaethics social and political philosophy and the philosophy of religion Although it has affinities to naturalist and Epicurean traditions it offers several distinctive and original lines of thought and argument addressing both theory and practical life In some contexts the text adopts a personal or Joycean perspective **The Moral Philosophy of**

Iris Murdoch Mark Hopwood, 2025-04-30 The moral philosopher and novelist Iris Murdoch said that philosophy is both the guide and mirror of the age In this wide ranging book Mark Hopwood explores the significance of Murdoch s philosophy in the present day paying particular attention to her account of the role of metaphor and imagery in moral reasoning Hopwood argues that one of the main reasons Murdoch s work has often been neglected by mainstream moral philosophers is that she offered a radically different conception of what it means to do moral philosophy Rather than seeking to establish a single systematic moral framework in the manner of utilitarian or Kantian theories she argued that moral philosophers ought to be concerned with describing the varied range of moral concepts that we actually use in everyday life and elaborating new concepts and modes of understanding to meet our most pressing social needs Examining the role of vision imagination love goodness and transcendence in Murdoch s work The Moral Philosophy of Iris Murdoch presents a compelling and original argument that she is one of the major moral philosophers of the twentieth century Robust Ethics Erik Joseph

Wielenberg, 2014 Erik J Wielenberg draws on recent work in analytic philosophy and empirical moral psychology to defend non theistic robust normative realism according to which there are objective ethical features of the universe that do not depend on God for their existence He goes on to develop an empirically grounded account of human moral knowledge **A**

Re-visioning Gender in Philosophy of Religion Pamela Sue Anderson, 2017-10-24 A passion for justice and truth motivates the bold challenge of Revisioning Gender in Philosophy of Religion Unearthing the ways in which the myths of Christian patriarchy have historically inhibited and prohibited women from thinking and writing their own ideas this book lays fresh ground for re visioning the epistemic practices of philosophers Pamela Sue Anderson seeks both to draw out the salient threads in the gendering of philosophy of religion as it has been practiced and to re vision gender for philosophy today The arguments put forth by contemporary philosophers of religion concerning human and divine attributes are epistemically located yet the motivation to recognize this locatedness has to come from a concern for justice This book presents invaluable new perspectives on the philosopher s ever increasing awareness of his or her own locatedness on the gender often unwittingly given to God the ineffability in both analytic and Continental philosophy the still critical role of reason in the field the aims of a feminist philosophy of religion the roles of beauty and justice the vision of love and reason and a gendering which opens philosophy of religion up to diversity

Iris Murdoch and the Search for Human Goodness Maria Antonaccio, William Schweiker, 1996-12 A HISTORY AND CRITIQUE OF THE WRITINGS OF IRIS MURDOCH The Making of the Good Person Nora Hämmäläinen, 2023-04-03 This book provides a philosophical assessment of the idea of personhood advanced in popular self help literature It also traces within academic philosophy and philosophical scholarship a self help culture where the self is brought forth as an object of improvement and a key to meaning progress and profundity Unlike other academic treatments of the topic of self help this book is not primarily concerned with providing a critique of popular self help and self transformative practices Rather it is concerned with how they work to shape contemporary forms and ideals of moral personhood and are conducive to moral renegotiation and change The book consists of two parts with somewhat different

argumentative strategies Part 1 consists of an overview and reassessment of popular self help literature and its sociological and journalistic critics written from a moral philosophical perspective Part 2 opens with discussion of the current attraction among a range of philosophers to self transformative themes The chapters assess the strand of self transformative philosophy found in the work of Ludwig Wittgenstein Michel Foucault Pierre Hadot Stanley Cavell and Iris Murdoch Finally the book concludes with a discussion of the theme of social change and moral renegotiation in contemporary societies which is a central but underestimated undercurrent in discussions on contemporary self transformative practices The book's dual perspective on both popular self help and self transformative currents in philosophy enables a cultural and moral philosophical analysis of contemporary ethical ideals of personhood as well as reflection on the literatures available for its development The Making of the Good Person will be of interest to scholars and advanced students working in moral philosophy history of philosophy psychology sociology and literary studies *A Philosophy to Live By* Maria

Antonaccio, 2012-04-13 *A Philosophy to Live By* highlights Murdoch's distinctive conception of philosophy as a spiritual or existential practice and enlists the resources of her thought to explore a wide range of thinkers and debates at the intersections of moral philosophy religion art and politics **Suffering Time: Philosophical, Kabbalistic, and Hasidic**

Reflections on Temporality Elliot R. Wolfson, 2021-05-25 No one theory of time is pursued in these essays but a major theme that threads them together is Wolfson's signature idea of the timeswerve as a linear circularity or a circular linearity expressions that are meant to avoid the conventional split between the two temporal modalities of the line and the circle The conception of time elicited by Wolfson from a host of philosophical and mystical sources both Jewish and non Jewish buttresses the contention that it is precisely structural invariability that engenders interpretive variation This hermeneutical axiom is justified in turn by the presumption regarding the cadence of time as the constant return of what has always been what is yet to be The telling of time wells forth from the time of telling One cannot speak of the being of time consequently except from the standpoint of the time of being nor of the time of being except from the standpoint of the being of time
