Testing Testing F. Allan Hanson, 1994-01-01 This book is about how our addiction to testing influences both society and ourselves as socially defined persons The analysis focuses on tests of people particularly tests in schools intelligence tests vocational interest tests lie detection integrity tests and drug tests Diagnostic psychiatric tests and medical tests are included only tangentially A good deal of the descriptive material will be familiar to readers from their personal experience as takers and or givers of tests But testing as with much of ordinary life has implications that we seldom pause to ponder and often do not even notice My aim is to uncover in the everyday operation of testing a series of well concealed and mostly unintended consequences that exercise far deeper and more pervasive influence in social life than is commonly recognized

The Limits of Truth: Essays

Robert N. Britcher, 2012-12-10 These intriguing essays on philosophical truth encapsulate the history and theories of truth the acquisition of common sense reasoning and language and logic and science But they go beyond the logical propositional truth and investigate truth in the ontological sense for example in faith art and history The essays are literary and non academic in style The author has a point of view truth is an evolutionary concept that arose among human and hominid societies This evolutionary view stresses the high degree to which our reasoning and truth telling are rooted in our emotions which account for not just meaning in the linguistic sense but also meaningfulness or emotional significance It is the latter which leaves us open to subconscious as well as fully intentional lying but also to great works of art and acts of faith
