Some aspects of the extraterritorial reach of the American antitrust laws Hendrik. Zwarensteijn, 2013-06-29 General While there is an abundance of literature dealing with the American antitrust laws one can also observe that the application of this area of the law to foreign commerce is still in an evolutionary stage of development To some extent this can be quantifiably explained by pointing out that the rapid rise of the interests of the American business community in foreign commerce is only a fairly recent phenomenon This participatory interest reveals a wide spectrum of commercial activities While the traditional concept of foreign commerce was often limited to thinking in terms of exports and imports present commercial activities include also such marketing methods as the establishment of foreign branches or subsidiaries or 2 the location of manufacturing processing or assembly plants abroad To this array of arrangements most of which contemplate a widening of the market potential we may add the current merger movement the conglomerate character of which has been termed its most unique characteristic 3 Little wonder that at least one author refers to the application of the antitrust laws to foreign commerce as being still somewhat of a frontier area of the law 4 Because of the rapidly expanding participation of the American business community in international commerce a gradual evolution of the international dimensions of the American antitrust laws seems therefore within the realm of justified expectations

Towards Reforming the Legal Framework for Secured Transactions in Nigeria Chima Williams Ithem, 2016-08-16 This book offers a valuable guide to one of the most challenging areas of commercial law now frequently referred to as secured transactions with a focus on Nigerian Canadian and United States perspectives A debtor's ability to provide collateral influences not only the cost of the money borrowed but also in many cases whether secured lenders are willing to offer credit at all The book proposes that increasing access to and indeed lowering the cost of credit could tremendously boost economic development while at the same time arguing that this would best be achieved if the legal framework for secured transactions in Nigeria and of course any other country with similar experiences were designed to allow the use of personal property and fixtures to secure credit Similarly the creation priority perfection and enforcement of

security interests in personal property should be simplified and supported by a framework that ensures that neither the interests of secured lenders nor debtors are hampered so as to guarantee the continuous availability of affordable credit as well as debtors willingness to borrow and do business The book further argues that in addition to the obvious preference for real property over personal property by secured lenders due to the unreformed secured transactions legal framework in Nigeria its compartmentalized nature has also resulted in unpredictability in commerce and the concomitant effects of poor access to credit Through the comparative research conducted in this book utilizing the UCC Article 9 and Ontario PPSA as benchmarks the author provides reformers with a repository of tested secured transactions law solutions which law reformers in the Commonwealth countries in Africa and beyond as well as the business community will find valuable in dealing with issues that stem from secured transactions
