Their rhetoric has changed the political discourse shaking the ideal of an ever closer union to its core. This book seeks to understand to what extent Eurosceptic attitudes translate into legislative administrative and judicial practices that challenge EU law and governance in the Member States. It reveals the many facets of national

resistance that the EU is currently facing ranging from open defiance to ignorance of EU law It includes perspectives from the entire Union from old and new western and eastern troublesome and ostensibly compliant Member States Bringing together experts from law and political science this timely book offers unique insights into the reception and sometimes rejection of EU law in the Member States It is essential reading for anyone interested in the current challenges and the future of the European Union
