He states: The religious and spiritual world outlooks of Ndi Igbo predisposed them to seek for meaning of life in a religious spiritual setting. The double assaults of the invasive colonialism and Christian Missionary exploits as well as these catastrophes: slavery and slave trade, the Nigerian Biafran war, Neo Colonialism, the exploitation, marginalization and oppression of the Igbo people motivated them to raise questions about the fundamental quality of being human: who am I and what is the meaning of my life. The economic hardship, political instability and the attack on fundamental Igbo cultural heritage also joined forces with the other factors mentioned above to cause existential frustration and existential vacuum within the Igbo population. The author developed and explored what he calls Heschelian Diagnostic Tool as well as the ten psycho-pastoral phases in the search for the meaning in Human life. He proposed a new vision for prayer and healing ministry which is centered on the empowerment of each individual person to respond responsibly to the demand quality of life, to engage in actions that are responses to the questions life poses before each unique individual.
