## **Art Law Cases And Materials Revised Edition:**

*Art Law* Leonard D. DuBoff, Sherri Burr, Michael D. Murray, 2010 *Art Law Cases and Materials* now in a newly revised edition offers a timely and panoramic view of this entire field of law. Designed as a primary text for courses on Law and the Visual Arts, Cultural Property Law or Cultural Heritage Law, the three part framework of this highly readable casebook explores Artists Rights, Art Markets and the International Preservation of Art and Cultural Property. With remarkable scope and currency, *Art Law Cases and Materials* features comprehensive and balanced topical coverage that includes IP, cultural property, the First Amendment, art markets and museum law, an in depth look at the transactions and relationships between artists and galleries, dealers and clients, thoughtful discussion of the preservation of art and cultural property in peacetime and wartime. Expanded and updated, the Revised Edition presents up to date case excerpts and notes, new coverage of Native American and Indigenous Peoples Art and the Right of Publicity in two dedicated chapters, additional coverage of copyright, moral rights and VARA, Visual Artists Rights Act, First Amendment and international protection of art and cultural property in peacetime and wartime. With comprehensive coverage of each topic typically offered in art law courses today and with practice oriented problems for discussion in each chapter, *Art Law Cases and Materials* provides each reader with the knowledge and insight to handle the issues that arise in the complex but exciting and dynamic field of law and the visual arts.

**Art, Cultural Heritage, and the Law** Patty Gerstenblith, 2008 *Art Cultural Heritage and the Law* is one of the first legal casebooks to address the rapidly emerging fields of art and cultural heritage law, utilizing an interdisciplinary approach. This book addresses artists rights, freedom of expression, copyright, moral rights and rights in architectural works and historic preservation, the functioning of the art market, dealers and auction houses, warranties of quality and authenticity, transfer of title and recovery of stolen art works and the role of museums and finally cultural heritage, the fate of art works and cultural objects in time of war, the international trade in art works and cultural objects, the archaeological and underwater heritage of the United States and indigenous cultures, focusing on restitution of Native American cultural objects and human remains and appropriation of indigenous culture. The new edition, available summer 2008, will retain the basic structure of the first edition while updating case law, policies and events. It will include recent materials and developments such as new cases: *Malevich v City of Amsterdam*, resolution of the Barnes dispute, recent deaccessioning disputes, *Iran v Barakat*, *U S v Ligon*, recent restitutions of ancient art works from US museums to Italy and other countries and new museum policies. There will also be an expansion of treatment of underwater cultural heritage, historic preservation and archaeological resources. *Art Market Research* Tom McNulty, 2013-12-27 This book is for art market researchers at all levels. A brief overview of the global art market and its major stakeholders precedes an analysis of the various sales venues: auction, commercial gallery etc. Library research skills are reviewed and advanced methods are explored in a chapter devoted to basic market research. Because the monetary value of artwork cannot be established without reference to the aesthetic qualities and art historical

significance of our subject works two substantial chapters detail the processes involved in researching and documenting the fine and decorative arts respectively and provide annotated bibliographies Methods for assigning values for art objects are explored and sources of price data both in print and online are identified and described in detail In recent years art historical scholarship increasingly has addressed issues related to the history of art and its markets a chapter on resources for the historian of the art market offers a wide range of sources Finally provenance and art law are discussed with particular reference to their relevance to dealers collectors artists and other art market stakeholders

### **Cultural Property**

**Acquisitions** Aimée L Taberner,2016-06-16 Museum staff whether new to the field or working with collections for decades are often overwhelmed by the complexities of acquiring cultural property particularly antiquities and archaeological material Collecting practices now require a greater degree of transparency and cooperation with various stakeholders than in the past and are under greater scrutiny to be in line with current legal requirements and ethical expectations This book provides a concise unbiased and practical resource for those tasked with navigating the complicated and rapidly changing legal and ethical landscape governing the acquisition of cultural property and archaeological material
