The Quest for Meaning, 2009-01-01 The Quest for Meaning Teaching Learning and the Arts presents a narrative arts based approach to pedagogy and research in higher education Through narratives of experience the book offers revealing poignant examples of the transformative power of the arts and of narrative inquiry in learners lives and of the centrality of story in their ongoing quest for meaning The Quest for Meaning will be valuable in a wide range of graduate and undergraduate settings It provides a framework for the development of new pedagogies which integrate the theory and practice of narrative arts based approaches to education The work makes a contribution to the fields of narrative and arts based inquiry and pedagogy qualitative research methods holistic and integrated studies and self directed inquiry It will appeal to a range of audiences who are interested in this creative integrative approach to education and who want to gain insights into how students learn from their own unique perspectives Grounded in Dr Beattie's interconnected approach to research and pedagogy the book begins with her own story of teaching learning research and the arts This provides the backdrop to an account of a collaborative pedagogy designed to enable students to conduct in depth narrative inquiries into their lives and to learn how to do narrative arts based research with others The author provides insights into the practices and processes of solitary and collaborative inquiry and the interaction and integration that take place within the three kinds of dialogue she proposes the dialogue with the self the dialogue with others and the dialogue between the dialogues The book's other twelve narratives show from learners unique perspectives how the creation and re creation of their ways of ways of knowing and being is a distinctively individual process involving all aspects of their humanity Individually these narratives provide valuable glimpses into the challenges the joys the frustrations and emotionality and the important personal satisfactions involved in the processes of learning unlearning and re learning In their own voices these learners tell of the diverse ways in which they became more responsive to their own inner lives to the perspectives and understandings of others and to the creation of more meaningful narratives for their current and future lives Collectively the narratives highlight the importance of

recognizing personal experience in settings of higher education They also present compelling evidence for acknowledging the significance of inquiry creativity imagination dialogue interaction and integration in enabling learners to bring the whole of their being to the learning process to the exploration of the stories by which they live and to the creation of new narratives for their future lives

Resources in Education ,2001-10 **Handbook of the Sociology of Education in the 21st Century** Barbara Schneider,2018-10-10 This handbook unifies access and opportunity two key concepts of sociology of education throughout its 25 chapters It explores today s populations rarely noticed such as undocumented students first generation college students and LGBTQs and emphasizing the intersectionality of gender race ethnicity and social class Sociologists often center their work on the sources and consequences of inequality This handbook while reviewing many of these explanations takes a different approach concentrating instead on what needs to be accomplished to reduce inequality A special section is devoted to new methodological work for studying social systems including network analyses and school and teacher effects Additionally the book explores the changing landscape of higher education institutions their respective populations and how labor market opportunities are enhanced or impeded by differing postsecondary education pathways Written by leading sociologists and rising stars in the field each of the chapters is embedded in theory but contemporary and futuristic in its implications This Handbook serves as a blueprint for identifying new work for sociologists of education and other scholars and policymakers trying to understand many of the problems of inequality in education and what is needed to address them
