Arts Architecture Case Study Houses:

Modern California Houses Esther McCoy, 1962 Comprises the Case study house program of the magazine arts and architecture Includes brief biographical notes on the architects **Case Study Houses** Elizabeth A. T. Smith, 2006 Because most opinion both profound and light headed in terms of post war housing is nothing but speculation in the form of talk and reams of paper it occurs to us that it might be a good idea to get down to cases and at least make a beginning in the gathering of that mass of material that must eventually result in what we know as house post war **Blueprints for Modern Living** Elizabeth A. T. Smith, Esther McCoy, 1999 Includes eight main essays as well as contributions from Elizabeth A T Smith this volume documents the Case Study House Program carried out between 1945 and 1966 where 36 experimental prototype houses were built by leading Californian architects **Case Study Houses** Marco Hemmerling, Markus Graf, 2016 The Case Study House program ranks among the most influential and innovative projects in American architectural history of the post war period and has lost none of its fascination even today The experimental designs of renowned avant garde architects such as Richard Neutra Craig Ellwood Raphael Soriano and Eero Saarinen succeeded in presenting unique houses that completely redefined the concept of modern living 0The present publication interprets the Case Study Houses using the new digital tools that architects now have at their disposal and which make the projects accessible in a wholly different way While traditional documentation provides floor plans sections elevations and perspectives we are now achieving new insights into the concepts structure construction design and spatial effects of the houses by using 3D models BIM data and atmospheric visualization as well as advanced image processing It is even possible to download 3D models of some of the houses and try out novel approaches to individual projects Above all the book will serve as an inspiration for new architectural ideas and promote the use of these technologies in the design visualization and realization of such concepts in creative and innovative ways **Blueprints for Modern Living** Elizabeth A. T. Smith, Esther McCoy, 1989 This book documents Arts Architecture magazine s sponsorship of some of the most important architects of the region and the generation reflecting an unprecedented commitment to reinventing the house as a way of redefining living **The Presence of the Case Study Houses** ,2004-01-01 Since their origins over half a century ago the Case Study Houses have ranked among the classics of architectural modernism In a journey into the present reality of the Case Study Houses the two authors of this book have systematically visited and photographed the houses and their owners Viewing these projects through the lens not only of practicing architects teachers and critics but also of representatives of Old Europe confronting the achievements of the New World they describe and elaborate the stories of some of the most thrilling residential projects of the last century **The Grove Encyclopedia of American Art** Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries *Chicagoland Dream Houses* Siobhan Moroney, 2024-01-23 *Chicagoland Dream Houses* is an engaging addition to the growing body of
