and Decision Makers **From Truth and truth** Francis Etheredge, 2016-04-26 What emerges in this second book of the trilogy is that the very ground and content of experience is richer than what can be reduced to a particular account of it As such dialogue develops from the natural diversity of what is of faith and what is of reason Neither faith nor reason however originates from experience rather both are witnessed in experience In other words taking up questions about the nature of man whether philosophically psychologically or in terms of social structures manifests both a variety of points of departure and at the same time the manifold conversations that are possible in the field of culture Focusing particularly on the work of St John Paul II the first essay examines the answer of reason and the answer of faith to the same question What is man Conversion too entails an unexpected relationship to natural truth which in its own way is both adequate and inadequate to salvation Communication as it were runs throughout these essays however in particular there is a need to enrich our human understanding of the process of coming to ourselves with the insights of spiritual discernment Axiomatically however it is possible to say that just as we come to exist through a relationship to others so our healing and holiness are manifest through our relationship to others in the Other Furthermore while it is ultimately true that we exist as individually rooted in the social structure of our origin and the times in which we live we need to critically participate in the dialogue which identifies our common reality and not live our lives covered in psycho social labels of one kind or another As a whole then there is an incomparable range and depth to dialogue Indeed given the many critical situations in the world it is increasingly indispensable and essential that humanity choose the incredible wealth of dialogue in contrast to the possibility of a polarised and conflictual structure between people and peoples **Moral Issues in Global Perspective - Volume 2: Human**
