Pink Tides, Right Turns in Latin America Charmain Levy, Manuel Larrabure, 2024-10-18 This book presents case studies around issues of national development right wing populism and use of social media left wing authoritarianism and popular uprisings as well as reflections on short and long term political and economic cycles in Latin America in the past 10 years Scholars government and civil society practitioners have long recognized both the democratic and development deficit in Latin American countries as well as their potential The path towards a consolidated democratic state and civil society as well as socio economic collective well being has been far from linear and this edited collection provides theoretical clarity on the social political and economic dynamics driving these changes such as historical cycles in the commodities market the emergence of new social movements the rise and pitfalls of populism the influence of corporate media and the erosion of democratic institutions The chapters in this volume approach the topic of Latin American right and Left forces by attempting to determine whether a new and potentially long term political cycle is unfolding in the region To this end the chapters focus on a perspective that compares the emergence of the new Right with the successes and limitations of the previous 20 years of Pink Tide governance This volume will be of great use to students and researchers interested in Latin American studies comparative politics as well as political leadership The chapters in this book were originally published as a special issue of *Globalizations*

El sistema electoral de la Región de Murcia: regulación, balance (1983-2015) y perspectivas. Javier Sierra Rodríguez, 2017-04-27 El triple objetivo de este libro es analizar el margen del legislador autonómico para la configuración de su sistema electoral realizar un balance del sistema vigente en la Región de Murcia entre 1983 y 2015 así como examinar el proceso de reforma que adoptó la circunscripción única y rebajó el umbral electoral al 3% La modificación llevada a cabo en 2015 cerró una etapa marcada por la demanda de una mayor proporcionalidad y facilidad de acceso a la representación parlamentaria ante una configuración que combinaba cinco circunscripciones infraprovinciales algunas de ellas de baja magnitud electoral y una barrera electoral autonómica del 5% El análisis en profundidad del marco jurídico permite afirmar que el legislador autonómico tenía un amplio margen de libertad que le hubiese permitido ir más allá de una reforma de mínimos siendo viables otras modificaciones como el desbloqueo de listas o la introducción de elementos mayoritarios como el sistema de doble urna siempre que cumpliera con el requisito de poseer una tendencia proporcional El nuevo sistema elimina las primas a los partidos más votados y hace más permeable a la Asamblea Regional de Murcia facilitando la entrada parlamentaria de fuerzas políticas no representadas hasta el momento lo que puede tener importantes consecuencias en el sistema de partidos de la Región de Murcia como el aumento del número efectivo de partidos y de la fragmentación parlamentaria La edición de este libro ha contado con la colaboración de la Facultad de Derecho de la Universidad de Murcia Javier Sierra Rodríguez es Doctor en Derecho Público y Licenciado en Ciencias Políticas y de la Administración Es politólogo en ejercicio y profesor asociado de la Facultad de Derecho de la Universidad de Murcia Ha participado en proyectos de investigación sobre el régimen jurídico de la jornada electoral y sobre el comportamiento electoral contando con múltiples contribuciones en congresos y publicaciones científicas Entre 2009 y 2015 fue el Decano del Colegio de Ciencias Políticas y Sociología de la Región de Murcia
